

Clean Energy Transition Partnership

CETPartnership Joint Call 2025

Annex B. National/regional requirements and guidelines

2025-08-15

The Clean Energy Transition Partnership is a transnational joint programming initiative to boost and accelerate the energy transition, building upon regional and national RDI funding programmes. The initiative is receiving funding from the European Union's research and innovation programme "Horizon Europe" under grant agreement No 101069750.

AUSTRIA– AUSTRIAN RESEARCH PROMOTION AGENCY (FFG)

Last updated 22.04.2025

Information on the Funding Organisation in the Call

Budget	CM2025-01, CM2025-02, CM2025-03A, CM2025-03B, CM2025-07 and CM2025-09: 6 Mio. € (financed by the Federal Ministry for Innovation, Mobility and Infrastructure [BMIMI] – thematic focus energy transition) CM2025-05: 2 Mio. € (financed by the Federal Ministry for Innovation, Mobility and Infrastructure [BMIMI] – thematic focus mobility transition) CM2025-04, CM2025-06 and CM2025-08: 5 Mio. € (financed by the Austrian Climate and Energy Fund)
Anticipated number of projects to fund	20–40
Website	https://www.ffg.at/CETPartnership_JointCall2025
Contact	Paul Kuttner (call modules 04 and 06-08) paul.kuttner@ffg.at +43 5 7755 5069 Anita Hipfinger (call modules 01-03 and 09) anita.hipfinger@ffg.at +43 5 7755 5025 Johannes Fritzer (call module 05) johannes.fritzer@ffg.at +43 5 7755 5032

National/regional requirements and guidelines on proposals

Call Modules and topics	All Call Modules are open for Austrian applicants. However, the following restrictions apply: For CM2025-04 applications : Thematic restriction for Austrian participants: With regard to potential implementations in Austria, the Austrian legal restrictions regarding the maximum volume of geological CO ₂ storage are to be kept. Only unavoidable residual emissions reduced to a technical minimum are to be offset by technical sinks in CCUS projects. For CM2025-05 applications : Thematic restriction for Austrian participants to green hydrogen (as a fuel, produced by electrolysis or based on biogenic
--------------------------------	---

<p>Call Modules and topics (cont.)</p>	<p>raw materials) or fuels produced by the use of green hydrogen as a reactant (e.g. Power-Liquid, Power-to-Gas, Power-to-Ammonia). The contribution of Austrian participants in submitted proposals should be focused on the development and use of hydrogen and fuel cells in mobile applications. According to the goals of Austria's National Hydrogen Strategy, the proposals must concentrate on applications in the transport sector, where electrification is difficult to achieve (aviation, heavy-duty road and rail transport, shipping). The Austrian project partner must demonstrate fulfilment of these requirements in the application, but the requirements do not apply to the entire project.</p>
<p>Proposal submission</p>	<p>In parallel to the submission of the joint proposal by the Coordinator, a simplified national application is mandatory for Austrian applicants requesting funding by FFG. The proposal must be submitted via the FFG electronic submission system eCall both in the pre-proposal and in the full proposal stage.</p> <p>Submission deadline pre-proposals: 13 October, 2025 at 12:00</p> <p>Submission deadline full proposals: 16 March, 2026 at 12:00</p>
<p>Project Consortium Partners</p>	<p>In general, universities, research institutes, SMEs and large companies, cities, municipalities and NGOs (legal entities) are eligible for funding. The complete eligibility criteria and definitions may be found in the national guidelines.</p> <p>At least one commercial enterprise that receives funding is mandatory as a partner in any transnational consortium involving Austrian partners. It is not mandatory for this enterprise to be located in Austria.</p> <p>All Austrian partners in one project must select the same research type.</p>
<p>Project duration</p>	<p>24 to 36 months</p>
<p>Project budget</p>	
<p>Funding request</p>	<p>Maximum funding per project 2,000,000 €</p> <p>Minimum funding per project 100,000 €</p>

Funding rates (%)	35–85%			
	Basic research	Industrial/ applied research	Experimental develop- ment/innovation	
	Large enterprises	n.a.	55%	35%
	Medium enterprises	n.a.	70%	50%
	Small enterprises	n.a.	80%	60%
	Universities, public re- search organisations	n.a.	85%	60%
	Public authorities	n.a.	80%	60%
Associations without eco- nomic activities, NGOs	n.a.	80%	60%	
Notes	For detailed information, see the national guidelines , national cost guidelines and instrument guidelines .			
Types of cost	<p>Personnel costs, Overhead costs (flat rate), Use of R&D infrastructure, Costs of materials, Third-party costs, Travel costs.</p> <p>For detailed information, see the national cost guidelines.</p> <p>Costs must be allocated directly to the project, incurred during the funding period in addition to normal operating expenses, correspond to the funding contract and can be proven.</p>			
RDI approaches and TRLs	<p>Industrial research & experimental development</p> <p>TRL 2–8</p>			
Other requirements/guidelines	<p>Applicants are strongly encouraged to contact FFG before submitting a pre-proposal.</p> <p>For projects awarded funding scientific and financial reporting via eCall on an annual basis is mandatory.</p>			

BELGIUM/FLANDERS – FONDS INNOVEREN EN ONDERNEMEN (FIO)

Last updated 16.05.2025

Information on the Funding Organisation in the Call

Budget	1.500.000 €, excluding EC top-up.
Anticipated number of projects to fund	N/A
Website	https://www.vlaio.be/nl/nieuws/4de-oproep-clean-energy-transition-partnership-deadline-9-oktober-2025
Contact	Frank Verschraegen, frank.verschraegen@vlaio.be , +32 471 55 98 19

National/regional requirements and guidelines on proposals

Call Modules and topics	All Call Modules.
Proposal submission	<p>An annex is to be submitted together with the international project proposal to Flanders Innovation and Entrepreneurship.</p> <p>The annex(es) must be read together with the international project proposal. For this reason the focus of this annex should <u>only</u> be on the role of the (Flemish) company in the project, the nature of the activities to be carried out by the Flemish partners and the impact of the project results for the company in particular.</p> <p>The template annex for international and interregional projects, the template budget application and the explanatory document on R&D-projects can be found here: Application process for research project grant Agentschap Innoveren en Ondernemen (vlaio.be)</p>
Project Consortium Partners	Participation of at least one private company (SME or large company), based in Flanders, as a Project Consortium Partner is mandatory (with the possibility to cooperate with research organisations).
Project duration	<p>Max. 2 years for development projects.</p> <p>Max. 3 years for research projects.</p> <p>Longer durations are possible when profoundly motivated.</p>

Project budget			
Funding request	Max. 500.000 € per awarded project.		
Funding rates (%)	Basic research	Industrial/ applied research	Experimental develop- ment/innovation
Large enterprises	N/A	65%	40%
Medium enterprises	N/A	70%	50%
Small enterprises	N/A	70%	60%
Universities, public re- search organisations	N/A	See Notes below	See Notes below
Public authorities	N/A	Not funded	Not funded
Associations without eco- nomic activities, NGOs	N/A	Not funded	Not funded
Notes	Universities and research organisations can only participate as a research partner or as a subcontractor of a company. They will receive the same funding rate as the company.		
Types of cost	Personnel costs and related direct and indirect costs according to VLAIO rules.		
RDI approaches and TRLs	Research projects and Development projects, up to TRL 7.		
Other requirements/guidelines	It is advised to contact VLAIO before submission (see contact point above), in order to avoid ineligible projects and consortia.		

CANADA/ALBERTA – EMISSIONS REDUCTION ALBERTA (ERA)

Last updated: 06-05-2025

Information on the Funding Organisation in the Call

Budget	Total ERA funding envelope is \$3 million CAD (~€2 million at current exchange rate). ERA in its sole discretion reserves the right to modify the total funding available under this Call.
Anticipated number of projects to fund	Approximately 3–4 anticipated.
Website	https://www.eralberta.ca/
Contact	Isabella Tarasco, Technology Investment Lead (Main Contact) Email: itarasco@eralberta.ca Christophe Owtrim (Executive Director, Technology and Innovation) Email: cowtrim@eralberta.ca

National/regional requirements and guidelines on proposals

Call Modules and topics	<p>All focus areas mentioned in the CETP Joint Call 2025 guidelines for the modules noted below are eligible for Alberta/Canada. However, the following areas for CCUS are NOT eligible for Canada/Alberta region:</p> <ul style="list-style-type: none"> • Acid gas injection • Offshore storage <p>Eligible Modules</p> <ul style="list-style-type: none"> • CM2025-02 - Energy System Flexibility • CM2025-03 - Advanced renewable energy technologies (A&B) • CM2025-04 - CCUS • CM2025-05 - hydrogen and renewable fuels • CM2025-06 - heating and cooling technologies • CM2025-08 - integrated industrial energy systems <p>For all focus areas, ERA funding will NOT be provided to projects whose primary focus is commercially proven technologies/processes, or activities assessed to be business-as-usual, or to address only financial barriers.</p>
--------------------------------	---

<p>Proposal submission</p>	<p>In addition to a proposal submitted on the CETPartnership Submission Platform, ERA will require applicants, during the <u>full proposal stage ONLY</u>, to provide supplemental information to support due diligence and portfolio reporting. This information may include detailed budget information, financial report(s), an extended Greenhouse Gas benefits analysis, and/or additional information on the specific alignment with the Alberta market. Supplemental information relates to both the overall project and the component of the project based in Alberta. The final document for the Supplemental Information must be no more than 15 pages in length excluding appendices. Financial reporting will be required for the Alberta-based partner(s) on the project and is mandatory for the project partner that will receive funding from ERA. The Supplemental Information document, budget sheet and appendices must be submitted via email to ERA Applications at applications@eralberta.ca at the same time the full project proposal is due to the CETP Joint Call 2025.</p>
<p>Project Consortium Partners</p>	<p>Applicants are encouraged to partner with Alberta’s post-secondary and research institutions, Indigenous communities, and municipalities where appropriate. These partnerships can offer significant benefits, including the attraction and training of highly skilled workers, increasing Alberta’s innovation capacity, engagement of local communities, and leveraging complementary resources. Applicants are NOT required to be located in Alberta, but all applicants must demonstrate a clear value proposition for the province. Applicants must demonstrate how the proposed project has the potential to support emissions reductions in Alberta.</p>
<p>Project duration</p>	<p>All projects must complete within a 3-year timeframe.</p>
<p>Project budget</p>	<p>There is no limit to project budget.</p>
<p>Funding request</p>	<p>\$1 million CAD (~€0.64 million at current exchange rate) per project. ERA in its sole discretion reserves the right to modify the maximum funding awarded per project.</p> <p>ERA will not award less than \$250,000 CAD (~€170,000 at current exchange rate) per project.</p>

Funding rates (%)	Basic research	Industrial/ applied research	Experimental develop- ment/innovation
Large enterprises	Ineligible	50%	50%
Medium enterprises	Ineligible	50%	50%
Small enterprises	Ineligible	50%	50%
Universities, public re- search organisations	Ineligible	50%	50%
Public authorities	Ineligible	Ineligible	Ineligible
Associations without eco- nomic activities, NGOs	Ineligible	50%	50%
Types of cost	For information about eligible expenses and costs, please refer to the <i>ERA Eligible Expenses and Cost Instructions document</i> available HERE .		
RDI approaches and TRLs	ERA funding is targeted for projects at the technology scale-up, field pilot, commercial demonstration, or commercial implementation stages (TRL 5–9).		
Other requirements/guidelines	<p>ERA will match applicant contributions or private (i.e., non-government) funds toward eligible costs on a one-to-one (1:1) basis. ERA will only fund up to 50% of a total project cost on eligible costs. We encourage applicants to reach out to our applications team to find out more.</p> <p>ERA will not match other government funds provided directly for the proposed project (federal, provincial, or international), or future revenue associated with the outcomes of the project such as offset credits or emissions performance credits associated with the project, tax incentives associated with the project (e.g., Canadian SR&ED credits), revenue from sales of the project’s end-products (e.g., from offtake agreement), or non-eligible contributions. Applicants must justify the amount of funding requested. ERA is working in partnership with other funding organizations in Alberta and across Canada. In some cases, there may be an opportunity for ERA to share applicants’ proposals with trusted partners and other funders in the system to explore possibilities to leverage funding available from these organizations. Potential funding programs and opportunities that may align with the Call or be of interest to applicants include:</p> <ul style="list-style-type: none"> • Alberta Innovates • Alberta Indigenous Opportunities Corporation 		

CETPartnership Joint Call 2025

DENMARK – ENERGY TECHNOLOGY DEVELOPMENT AND DEMONSTRATION PROGRAMME (EUDP)

Last updated 19.05.2025

Information on the Funding Organisation in the Call

Budget	Maximum 10 mill. DKK. (approx. 1.340.000 EUR).
Anticipated number of projects to fund	1-4
Website	https://eudp.dk/soeg-tilskud/indkaldelse-ansoegninger-til-dansk-deltagelse-under-cetpartnership
Contact	Wickie Lassen Agdal +45 33 92 92 73 wbl@ens.dk

National/regional requirements and guidelines on proposals

Call Modules and topics	<p>All</p> <p>NB: EUDP does not fund research activities under CETPartnership.</p> <p>The applicant should choose “Innovation Fund Denmark” for research focused projects and “EUDP” for development and demonstration focused projects.</p> <p><i>Contact the relevant national contact point for guidance as early in the application process as possible.</i></p>
Proposal submission	<p>EUDP require submission of specific appendices for national eligibility check:</p> <ol style="list-style-type: none"> 1. A short national EUDP-application (to confirm compliance with EUDP legal requirements). 2. A EUDP Gantt-diagram and a EUDP budget file. 3. A financial statement validating the company is not in difficulty. <p>Call documents will be available at: https://eudp.dk/soeg-tilskud/indkaldelse-ansoegninger-til-dansk-deltagelse-under-cetpartnership</p>

Project Consortium Partners	<p>To be eligible for support, the project must include <i>at least one private business enterprise*</i>. Projects may thus be carried out solely by private companies <u>or</u> in collaboration with public organisations and knowledge institutions.</p> <p><i>*A Danish private company, holding a Danish CVR number, must participate as an active partner. This partner must have the potential to generate impact in a Danish context. The company's role and contribution must be clearly documented in the separate national application submitted to EUDP.</i></p>		
Project duration	Maximum 36 months		
Project budget	Maximum 10 mill. DKK. (approx. 1.340.000 EUR).		
Funding request	N/A		
Funding rates (%)	Basic research	Industrial/ applied research	Experimental develop- ment/innovation
Large enterprises	N/A	N/A	40 %
Medium enterprises	N/A	N/A	50 %
Small enterprises	N/A	N/A	60 %
Universities, public re- search organisations	N/A	N/A	90 %
Public authorities	N/A	N/A	40 %
Associations without eco- nomic activities, NGOs	N/A	N/A	Depends on organisa- tion size
Notes	EUDP does not support research activities under CETPartnership. A partner not supported by EUDP may do research in the international CETPartnership-project.		
Types of cost	<p>Eligible costs include:</p> <ul style="list-style-type: none"> • Personnel costs • Instruments and equipment • Buildings • Other operating expenses, including materials • External/sub-supplies • Overhead costs • Other/travelling/dissemination 		

Types of cost (cont.)	<p>Danish applicants must comply with the EUDP rules which can be found here: Danish version / English version.</p> <p><u>It is not possible to receive funding for activities, which aim to:</u></p> <ul style="list-style-type: none"> • Conduct research. • Develop business models, market analyses, direct sales promotion and other commercial market activities, including deploying existing technology or commercial operation of plant and similar. • Expand infrastructure. • Implement preproduction planning or to streamline production or control processes and similar. • Establish new institutions or continue existing institutions through operating grants etc. • Fund operating expenses in connection with partnerships, as these are expected to be paid by the participating parties. • Purchase land and to fund related costs. • Complete case-processing by the authorities in connection with building projects, environmental approvals and similar. • Obtain patents and similar rights.
RDI approaches and TRLs	<p>EUDP supports projects focused on development and demonstration of new energy technology (TRL 4–8).</p>
Other requirements/guidelines	<p>EUDP’s assessment criteria for national proposals under CETPartnership can be found in the EUDP document package available at: https://eudp.dk/soeg-tilskud/indkaldelse-ansoegninger-til-dansk-deltagelse-under-cetpartnership</p>

DENMARK – INNOVATION FUND DENMARK (IFD)

Last updated 20.05.2025

Information on the Funding Organisation in the Call

Budget	1.3 MEUR
Anticipated number of projects to fund	6–10 projects
Website	<p>For general information, FAQ, etc., please visit: Innovation Fund Denmark - International Collaborations Website (https://innovationsfonden.dk/da/p/internationale-samarbejder)</p> <p>For the full rules and conditions from IFD, please refer to: Guidelines for International Collaborations (https://innovationsfonden.dk/da/p/internationale-samarbejder#accordion7920)</p>
Contact	<p>Daniel G. Marques daniel.g.marques@innofond.dk, +45 6190 5006 General mailbox: internationale@innofond.dk</p>

National/regional requirements and guidelines on proposals

Call Modules and topics	All call modules are eligible.
Proposal submission	<p>Applicants to IFD are not required to submit documentation to IFD beforehand. After the central application deadline, IFD will invite the Danish applicants to upload mandatory documentation to e-grant. The invitation is sent up to 2–4 weeks after the application deadline. Please contact IFD, if you do not receive this invitation from the national e-grant system.</p> <p>All organisations must then submit to e-grant the same proposal including budgets as submitted to the CETPartnership. Non-public organisations will also be requested to upload a “No undertaking in difficulty declaration” and a “Financial and legal declaration”. In addition, SME’s will be required to upload an “SME declaration”. If requesting <i>de minimis</i> funding, then a “<i>de minimis</i> aid compliance form” is required.</p> <p>All templates are available at IFD’s website (link above).</p>
Project Consortium Partners	All Danish organisations directly involved in activities in the projects are eligible as applicants to IFD.

Project duration	A consortium agreement must be signed by all partners before the start of the project cf. IFD's Guidelines for International Collaborations (link above).		
Project budget	N/A		
Funding request	The maximum funding amount per Danish partner in international projects is 300,000 €. If the project has two or more Danish partners, the maximum funding amount per project for all Danish partners is 500,000 €. The minimum funding amount is 50,000 € per partner.		
Funding rates (%)	The maximum investment rate varies between 25–90% for each individual participant. Please see tables 1–4 in the Guidelines (link above).		
	Basic research	Industrial/ applied research	Experimental develop- ment/innovation
Large enterprises	N/A	65%	40%
Medium enterprises	N/A	75%	50%
Small enterprises	N/A	75%	50%
Universities, public re- search organisations	N/A	90%	90%
Public authorities	N/A	90%	90%
Associations without eco- nomic activities, NGOs	N/A	As private enterprises	As private enterprises
Notes	<p>For Danish RTOs (<i>GTS</i>) and approved Clusters, specific funding rates apply according to the Guidelines. For other types of organisations, please consult the Guidelines.</p> <p>For <i>de minimis</i> funding rates, please consult tables 1–4 in IFD's Guidelines.</p> <p>The funding rates above do not replace the approved Guidelines.</p>		
Types of cost	Salaries; Travel; Subcontracting; Materials; Communication and knowledge sharing; Other expenses; and Overhead if applicable cf. the Guidelines.		
RDI approaches and TRLs	<p>All TRL levels are eligible.</p> <p>For call modules where the Danish Energy Technology Development and Demonstration Programme (EUDP) also participates, the applicant must choose IFD for more research-focused projects and EUDP for more development-focused projects (see EUDP's national annex for specific conditions).</p>

National/regional requirements and guidelines on proposals

Call Modules and topics	<p>Only the following Call Modules are eligible for ANR:</p> <ul style="list-style-type: none"> • CM2025-01: Multi-vector interactions between the integrated energy system and industrial frameworks • CM2025-02: Energy system flexibility: renewables production, storage and system integration • CM2025-03A: Advanced renewable energy (RE) technologies for power production (ROA) • CM2025-04 : Carbon capture, utilisation and storage (CCUS) • CM2025-05 : Hydrogen & renewable fuels. Concerning hydrogen production only green hydrogen production will be eligible for ANR. • CM2025-06: Heating and cooling technologies. Only Applied research and development projects (achieving TRL 4, 5 or 6 after project completion) will be eligible for ANR. • CM2025-09: Clean energy integration in the built environment
Proposal submission	Not required for the first stage (pre-proposal).

Proposal submission (cont.)	For the full proposal stage, partners requesting funding from ANR will be asked to apply for the ANR submission platform.		
Project Consortium Partners	Public research organisations (such as Universities, EPSTs or EPICs), as well as private entities (such as enterprises, NGOs and foundations) or public authorities may be eligible, provided that at least one French public research organisation applying for ANR funding is involved in the consortium and eligible for ANR funding. Please consult the ANR Funding regulations and the Appendix for applicants to ANR on the ANR website for detailed information: https://anr.fr/CETP-2025		
Project duration	36 months		
Project budget			
Funding request	<p>The maximum funding amount per project is 500.000 €, if the project has two or more French partners.</p> <p>The minimal funding per partner by ANR is 15 000 €.</p> <p>ANR expects typical funding requests per project to range between 200 000 € and 350 000 €, depending on the number of ANR-funded partners involved and whether ANR funds the project coordinator.</p>		
Funding rates (maximum, %)	Basic research	Industrial/ applied research	Experimental development/innovation
Large enterprises	30%	30%	25%
Medium enterprises	60%	60%	35%
Small enterprises	60%	60%	45%
Universities, public research organisations	See ANR funding regulations https://anr.fr/fr/rf/	See ANR funding regulations https://anr.fr/fr/rf/	See ANR funding regulations https://anr.fr/fr/rf/
Public authorities	See ANR funding regulations https://anr.fr/fr/rf/	See ANR funding regulations https://anr.fr/fr/rf/	See ANR funding regulations https://anr.fr/fr/rf/
Associations without economic activities, NGOs	See ANR funding regulations https://anr.fr/fr/rf/	See ANR funding regulations https://anr.fr/fr/rf/	See ANR funding regulations https://anr.fr/fr/rf/

Types of cost	See ANR funding regulations for more details: https://anr.fr/fr/rf/
RDI approaches and TRLs	<p>Basic Research, Industrial/Applied Research, Experimental Development.</p> <p>TRL 3–5 (activities at TRL above 5 are possible but must be marginal for partners requesting funding from ANR).</p>
Other requirements/guidelines	<p>A project proposal cannot be similar, in whole or in part, to another proposal submitted for a call currently being evaluated by ANR (all calls for proposals and evaluation stages considered) or already funded by ANR. Similarity between two projects is established when these projects (in whole or in part) describe identical main objectives or are the result of a simple adaptation.</p> <p>Companies in difficulties are excluded from ANR subventions. Partners from countries subject to sanctions applicable to the research field by the European Union authorities are excluded from this call for ANR. ANR will declare Partners requesting its support ineligible if they apply with Partners established in these countries. At the date of publication, these exclusions concern Partners from the following countries and territories: Russia, Belarus, territories of Ukraine non-controlled by the Ukrainian government. This list may evolve in case of new sanctions decided by the European Union.</p> <p>It is highly recommended to contact the national contacts during the preparation of the project.</p> <p>Depending on the consortium composition, a Consortium Agreement may be mandatory for ANR at the funding stage for successful applications.</p> <p>A DMP (Data management plan) must be transmitted to ANR and updated during the course of the project.</p> <p>PPST (National policy for the protection of the scientific and technologic potential of France): where available, applicants to ANR should consult their local “FSD” (security and defence officer) on their project before applying. Applications to ANR may be forwarded to the HFSD of the French Ministry of research and higher education for screening. A negative appraisal by the HFSD may cause ANR to reject the proposal.</p> <p>The above-mentioned terms and conditions are only summarized translations of those entailed in the ANR Funding regulations and in the Appendix “Modalités pour les Partenaires sollicitant une aide de l’ANR”. In case of inconsistencies, the terms of the ANR Funding Regulations and the Appendix shall prevail. Please refer to these documents for more details.</p>

FRANCE – PAYS DE LA LOIRE REGIONAL COUNCIL (RPL)

Last updated 06.05.2025

Information on the Funding Organisation in the Call

Budget	1,5M€
Anticipated number of projects to fund	N/A
Website	https://www.paysdelaloire.fr/clean-energy-transition-partnership-cetp
Contact	Gaëlle FROSTIN – gaelle.frostin@paysdelaloire.fr Charlotte NOBLOT – charlotte.noblot@paysdelaloire.fr

National/regional requirements and guidelines on proposals

Call Modules and topics	CM2025-03B
Proposal submission	No additional submission of proposal at regional level
Project Consortium Partners	Small, Medium and large companies established and carrying out R&D activities in Pays de la Loire can be funded. Other entities such as universities, public research institutions, technological centres, and other private non-profit institutions may also be funded only if a company from Pays de la Loire is also a Project Consortium Partner and is deemed eligible for funding. Companies must have been created since more than one year and have generated sufficient revenues.
Project duration	No regional requirement about project duration : see transnational requirement 6
Project budget	No regional requirement about project budget
Funding request	No regional requirement about funding request

Funding rates (%)	Basic research	Industrial/ applied research	Experimental development/innovation
Large enterprises	Ineligible	65%	40%
Medium enterprises	Ineligible	75%	50%
Small enterprises	Ineligible	80%	60%
Universities, public research organisations	Ineligible	75% of total eligible costs or 100% of marginal costs	75% of total eligible costs or 100% of marginal costs
Public authorities	Ineligible	Ineligible	Ineligible
Associations without economic activities, NGOs	Ineligible	Ineligible	Ineligible
Notes	Funding rates will be determined by the legal status of the applicant, the size of company and the proposed activity. The funding rate may vary from one work package to another. The final funding rate will be definitively defined after the selection phase.		
Types of cost	<p>Personnel costs i.e. the cost of researchers, technicians and other supporting staff to the extent employed on the relevant project or activity (gross salary, without overheads).</p> <p>Indirect costs: 15% of personnel costs.</p> <p>Contractual research costs, technical knowledge and patents bought or licensed from outside sources at market prices, and costs for consulting and equivalent services intended exclusively for the project.</p> <p>Other operating expenses, including costs for material, supplies and similar products, which result directly from the project.</p> <p>Instrument and equipment costs, to the extent and during the period in which they are used for the project.</p>		
RDI approaches and TRLs	<p>Projects may comprise industrial/applied research or experimental activities.</p> <p>Projects are expected to make relevant progress towards the demonstration of technology to TRL 6 or above (target TRL).</p>		
Other requirements/guidelines	Project activities in the proposed work plan funded by the Regional Council Pays de la Loire must be implemented in Pays de la Loire, or at least mobilise resources based in Pays de la Loire.

National/regional requirements and guidelines on proposals

Call Modules and topics	<p>Please note, that not all Call Modules are supported. This refers to CM2025-04 “Carbon capture, utilisation and storage (CCUS)”, which is not supported in the Joint Call 2025. All other Call Modules are supported.</p> <p>Please also note the additional national eligibility criteria for individual Call Modules described below.</p>
	<p>CM2025-01 “Multi-vector interactions between the integrated energy system and industrial frameworks”:</p>
	<p>The active participation of at least one German private company is mandatory, i.e. funded either by the Federal Government or by one of the regions NRW or Saxony.</p>
	<p>CM2025-02 “Energy system flexibility: renewables production, storage and system integration”:</p>
	<p>The tasks of the German partners must be relevant to the electricity grid, electrical energy storage systems and/or their integration into the power grid, including digitalization.</p>
	<p>The active participation of at least one German private company is mandatory, i.e. funded either by the Federal Government or by one of the regions NRW or Saxony.</p>

**Call Modules and topics
(cont.)****CM2025-03A/B “Advanced renewable energy (RE) technologies for power production”:**

Please note the exceptions:

1. Bioenergy applications for fuel production are not in the scope of “CM2025-03A/03B Advanced renewable energy (RE) technologies for power production”.
2. Ocean energy as well as hybrid-RES solutions with ocean energy for power generation (with negative CO₂ emissions) are not eligible for funding of BMWF. This includes co-location of offshore wind and wave energy as well as co-location of ocean and wind energy.
3. Furthermore, floating wind energy for power generation (with negative CO₂ emissions) and ocean floating PV are not eligible for funding of BMWF.
4. Geothermal energy for power applications are not eligible for funding of BMWF.

CM2025-05 “Hydrogen and renewable fuels”:

Please note the exceptions:

1. The production of hydrogen from biomass and natural hydrogen (white hydrogen) is excluded from funding.
2. The development and production of fuels for vehicle propulsion, including pure hydrogen for fuel cells and synthetic fuels, is not eligible for funding.

On the other hand, the conversion of gas turbines and internal combustion engines for power generation as well as combined heat and power in hydrogen-based power plants is eligible for funding. Likewise, the development of turbines and engines for the use of mixtures of hydrogen and natural gas or synthetic gases with the aim of using only hydrogen in stationary turbines and engines is funded.

3. Research into hydrogen-based drive systems is eligible for funding in quasi-stationary areas such as aviation, shipping, rail, construction machinery and other heavy goods vehicles. The further development of stationary fuel cells in buildings and neighbourhoods as well as in industry is eligible for funding, but not for the propulsion of passenger cars.
4. Research into system analysis and acceptance is only eligible for funding as a sub-project in conjunction with practical technology

<p>Call Modules and topics (cont.)</p>	<p>development or demonstration, but not as the sole research objective.</p> <p>CM2025-07 “Integrated regional energy systems”:</p> <p>No further constraints with exception to the constraints on hydrogen described above under CM2025-05 “Hydrogen and renewable fuels”, which also apply for CM2025-07 “Integrated regional energy systems”.</p> <p>CM2025-08 “Integrated industrial energy systems”:</p> <p>Please note the exception: Bio-CCUS is excluded from funding.</p> <p>CM2025-09 “Clean energy integration in the built environment”:</p> <p>Please note the exceptions:</p> <ol style="list-style-type: none"> 1. Zero emission fuel and hydrogen for heating in buildings are excluded from funding. 2. Mobility infrastructures and e-mobility concepts are not eligible for funding by BMW. 3. Small wind turbines in the building context are not eligible for funding. <p>Regardless of the call module and the respective exceptions German partners with own financing or funding are generally possible as “fully self-financed partners”.</p>
<p>Proposal submission</p>	<p>Pre-Proposal Phase</p> <p>Private companies (except self-financed) must provide a recent business assessment (BWA) and the latest annual financial statement (Jahresabschluss). The documents must be sent to ptj-cetp-bund@fz-juelich.de. Call deadline applies.</p> <p>We may request additional documents, especially credit rating documents.</p> <p>Full Proposal Phase</p> <p>We may request additional documents (e.g. German project description, credit rating documents, cost breakdown, information about planned exploitation of results etc.) for successful pre-proposals in individual Call Modules. These documents must be submitted at the same deadline as the full proposals and contain information on the evaluation criteria of the 8th Energy Research Programme: https://www.bmwk.de/Redaktion/DE/Publikationen/Energie/20240531-energieforschung-im-rahmen-des-8-energieforschungsprogramms.html</p>

Proposal submission (cont.)	<p>Detailed information will follow after a successful pre-proposal.</p> <p>Successful proposals</p> <p>Successfully selected full proposals must later submit formal national applications (“Anträge”) and additional, tangible exploitation plans via the national application system easy-Online. (Applicants will be informed about the direct link for submission).</p>		
Project Consortium Partners	<p>Potentially private and public applicants are funded, e.g. (non-exclusive):</p> <ul style="list-style-type: none"> • Private – SME • Private – large companies • Private – Non-profit research organisations • Higher education institutions (e.g. universities) • Public research organisations • Public organisations and municipalities 		
Project duration	<p>Max. 36 month (see also Call text on Transnational requirements and Call Module guidelines)</p>		
Project budget			
Funding rates (%)	Basic research	Industrial/ applied research	Experimental development/innovation
Large enterprises	n.a.	Max. 50%	Max. 40%
Medium enterprises	n.a.	Max. 60%	Max. 50%
Small enterprises	n.a.	Max. 70%	Max. 60%
Universities, public research organisations	n.a.	Max. 100%	Max. 90%
Public authorities	n.a.	Max. 100%	Max. 100%
Associations without economic activities, NGOs	n.a.	Max. 100%	Max. 50%
Notes	<p>Funding rates will be granted based on the targeted TRL, type of organisation, expected impact of results and financial situation of applicants.</p>		

Types of cost	<p>Only project related costs (e.g., personnel, equipment [depreciations], consumables, travel expenses, etc.) are eligible for funding.</p> <p>Applicants are strongly advised to consult BMWE guidelines on eligible costs (Richtlinien für Zuwendungsanträge (AZA/AZK)): https://foerderportal.bund.de/easy/easy_index.php?auswahl=formularschrank_foerderportal&formularschrank=bmwk</p>
RDI approaches and TRLs	<p>Focus on applied research: TRL at end of project 5-8 (lower TRL down to 3 only in special and justified cases)</p>
Other requirements/guidelines	<p>Additional eligibility criteria:</p> <p>The projects must fit thematically into the currently effective 8th Energy Research Programme of the Federal Ministry for Economic Affairs and Energy (BMWE). Industrial relevance and industrial participation are further requirements and eligibility criteria. Proposals must provide sound cost calculations breakdowns and clear exploitation plans. Proposals must show significant progress on state of the art and compared to nationally funded projects.</p> <p>An appropriate self-financial engagement of the industry is mandatory!</p> <p>We strongly recommend to contact the above mentioned contact persons for detailed information in advance especially in case of any changes in between pre and full proposal stage.</p>

GERMANY/NRW – FORSCHUNGSZENTRUM JÜLICH GMBH/PROJEKTRÄGER JÜLICH ON BEHALF OF MWIKE (PtJ-MWIKE)

INDIA – DEPARTMENT OF SCIENCE & TECHNOLOGY, MINISTRY OF SCIENCE & TECHNOLOGY, GOVERNMENT OF INDIA (DST)

Last updated 26.05.2025

Information on the Funding Organisation in the Call

Budget	<p>Overall Indian Commitment: 1.5 Million Euro</p> <p>CM2025-04 CCUS: 0.75 Million Euro (Equivalent Indian Rupees: Approx. Rs 6.70 Crore)</p> <p>CM2025-08 Challenge 1: 0.75 Million Euro (Equivalent Indian Rupees: Approx. Rs 6.70 Crore)</p>
Anticipated number of projects to fund	<p>Max. 2 projects for CM2025-04 CCUS and Max. 2 projects for CM2025-08 Challenge 1 (The numbers can be modified for the suitable project within the funding limit). Funding will be divided into approx. equal weightage to carbon capture, carbon utilisation/conversion and storage/sequestration.</p>
Website	<p>https://onlinedst.gov.in/</p>
Contact	<p>Primary Contact 1:</p> <p>Dr Neelima Alam, Email: neelima.alam@nic.in, Phone No.: +91-11-26590467</p> <p>Primary Contact 2:</p> <p>Dr Sanjai Kumar, Email: sanjai.k@gov.in, Phone No.: +91-11-26590270</p> <p>Secondary Contact:</p> <p>Dr Anita Gupta, Email: anigupta@nic.in, Phone No.: +91-11-26590213</p>

National/regional requirements and guidelines on proposals

Call Modules and topics	<p>CM2025-04 – CCUS</p> <p>CM2025-08 Challenge 1 – To develop or deploy GHG Mitigation Technologies in industrial sectors such as Oil and Natural Gas, Coal Mining, Cement, Steel.</p>
Proposal submission	<p>The applicant is required to submit a full copy of the proposal to the Department of Science and Technology at https://onlinedst.gov.in/ This proposal must be identical to what has been submitted to CETPartnership and</p>

	needs to be submitted to DST immediately after submission on the CETPartnership Submission Platform.		
Project Consortium Partners	<p>For CM2025-04 CCUS proposals</p> <p>The proposals are to be led by faculties/scientists working in regular position in recognized Academic Organizations/Public funded R&D Institutions/Laboratories, Central and State Government autonomous organizations in partnership with other academic/R&D organisation, DSIR recognized SIRO organizations, Central and state autonomous organisations, industry association, industries etc.</p> <p>For CM2025-08 Challenge 1 proposals</p> <p>The proposals have to be submitted in the consortium mode only (Academia/Researcher and Industry). The consortium is expected to be led by faculties/ scientists working in regular position in recognized academic institutions, public funded R&D Institution/ Laboratories, etc. Participation of relevant industries/ PSUs/ start-ups is mandatory. The consortium should essentially include at least a technology designer and a technology provider. Installation, Testing and Validation to be done in collaborating site with participating Industry.</p>		
Project duration	3 years.		
Project budget			
Funding request	<p>Maximum funding for Indian partners for awarded project will be restricted to maximum 0.37 Million Euro/project (Equivalent Indian Rupees: Approx. Rs 3.35 Crore).</p> <p>CM2025-04 CCUS: 0.75 Million Euro (Equivalent Indian Rupees: Approx. Rs 6.70 Crore)</p> <p>CM2025-08 Challenge 1: 0.75 Million Euro (Equivalent Indian Rupees: Approx. Rs 6.70 Crore)</p>		
Funding rates (%)	Basic research	Industrial/ applied research	Experimental development/innovation
Large enterprises	70%	70%	70%
Medium enterprises	70%	70%	70%
Small enterprises	75%	75%	75%

Universities, public re- search organisations	100%	100%	100%
Public authorities	70%	70%	70%
Associations without eco- nomic activities, NGOs	-	-	-
Types of cost	<ul style="list-style-type: none"> All project-related costs (e.g. Equipment, Personnel, Consumables, Contingencies, Travels, Other Costs, Overheads etc.) will be covered. Capital/Non-recurring costs are to be capped at max. 30% of the total project cost. Indian applicants must comply with the Department of Science & Technology (DST), India Rules and Regulations regarding all eligible costs. <p>Unless agreed otherwise:</p> <ul style="list-style-type: none"> Subcontracting is to be capped at a maximum of 20% of the Indian budget. All India eligible costs, including sub-contracts, should be incurred within India. Project management costs cannot be sub-contracted. 		
RDI approaches and TRLs	TRL 1-5		
Other requirements/guidelines	<p>The proposals submitted with well-defined and synergistic institute – user – industry partnership are encouraged.</p> <p>All Indian partners in a single project must be separate legal entities. However, there can be more than one investigator from the same entity.</p> <p>Participating Indian companies must:</p> <ol style="list-style-type: none"> Be incorporated in India under the Companies Act 1956/2013. Have at least 51% stake of the Company be owned by Indian citizens and Headquartered in India. Have been in operation for at least 3 financial years before the closing date for application. Be registered under relevant provisions of Good & Services Taxation (GST) Act. Have required expertise and capacity to technically contribute to the proposed project. 		

6. The maximum funding for Industry will not be more than their MSME definition based on Investment in plant and machinery for manufacturing Sector and Investment in equipment for Service Sector (MSMED Act 2006 or their consecutive amendments).
7. DST funding for Industry will be inline with the rates mentioned in the table at Annexure -I enclosed.
8. Industry contribution should only be in cash.
9. The man-hours of existing workforce, utilization of facilities etc. will not be counted as industry contribution.
10. Indian industry/association may receive their part of the eligible costs on a “**Reimbursement Basis**”, for costs already incurred on a proportionate basis.

Companies need to provide the following with the First Stage application:

- Evidence they have the resources and finances to undertake the project.
- An audited copy of their submitted annual accounts for the last three fiscal years.

Please note:

- Sole proprietors and partnership firms are not eligible for support under this programme.
- Companies headquartered and owned outside India and their subsidiaries in India, or vice versa, are not eligible to receive funding directly or indirectly.
- All the funded projects would be bound by guidelines stipulated by the Department of Science and Technology from time to time. The detailed guidelines for this call will appear on DST website, which will supersede anything stated here. The applicants may approach the national contact for specific queries at any stage of the project.

IRELAND – TAIGHDE ÉIREANN – RESEARCH IRELAND (formerly SFI)

Last updated 12.06.2025

Information on the Funding Organisation in the Call

Budget	€800,000
Anticipated number of projects to fund	1–2 projects
Website	https://www.researchireland.ie/funding/
Contact	<p>Dr. Emma McGrath, EU Programmes Officer emma.mcgrath@researchireland.ie</p> <p>General mailbox enquiries eu-cofund@researchireland.ie</p>

National/regional requirements and guidelines on proposals

Call Modules and topics	<p>The following Call Modules only are eligible for funding from Research Ireland:</p> <ul style="list-style-type: none"> • CM2025-02: Energy system flexibility, renewables production, storage and system integration • CM2025-03A: Advanced renewable energy (RE) technologies for power production (ROA) • CM2025-04: Carbon capture, utilisation and storage (CCUS) • CM2025-05: Hydrogen and renewable fuels <p>Pre-proposals received to other call modules not listed above will be deemed ineligible.</p>
Proposal submission	<p>Applicants must notify Research Ireland in advance of proposal submission. More details can be found on Research Ireland’s CET 2025 call webpage: https://www.researchireland.ie/funding/</p>
Project Consortium Partners	<p>Only an academic partner or coordinator based in an eligible Irish Host Research body may apply for Research Ireland funding.</p> <p>Please refer to Research Ireland’s Policies and Guidance for the list of eligible Research Performing Organisations: Eligibility Information</p>

	<ul style="list-style-type: none"> • Research Ireland will only accept one proposal application per individual applicant. • Applicants can apply to both Research Ireland and other participating Irish agencies with different project proposals, if eligible under each agency’s own rules. An applicant is not permitted to request funding from more than one participating Irish agency for the same proposal. • If two or more Ireland-based applicants are partners on the same proposal planning to carry out distinct work, funding can be requested separately by each partner to different participating agencies, adhering to each agency’s own rules and requirements. Please note Research Ireland will fund only one partner per proposal. <p>For applicant eligibility, please refer to Research Ireland’s CETPartnership 2025 call webpage for more information: https://www.researchireland.ie/funding/</p>

IRELAND – SUSTAINABLE ENERGY AUTHORITY OF IRELAND (SEAI)

Last updated 25.06.2025

Information on the Funding Organisation in the Call

Budget	€500,000
Anticipated number of projects to fund	3-4
Website	Strategic Research Funding Partnerships SEAI
Contact	energyresearch@seai.ie

National/regional requirements and guidelines on proposals

Call Modules and topics	SEAI will consider funding applications to all CETPartnership Call Modules as long as they demonstrate alignment with the SEAI National Research Development and Demonstration programme objectives.
Proposal submission	National application to SEAI – Deadline March 19 th 2026. Applicants invited to submit full proposals will be contacted by SEAI with more information in early 2026.
Project Consortium Partners	SEAI National Energy RD&D Funding is open to public and private sector organisations based in the Republic of Ireland (including Irish subsidiaries of overseas companies) who wish to carry out projects in Ireland. Applications will be accepted from companies, 3rd level educational bodies, public sector bodies and semi-state bodies who are based in the Republic of Ireland. Proposals from individuals applying in their own right will not be accepted.
Project duration	Up to 36 months
Project budget	
Funding request	Up to 250,000 per project from SEAI.
Funding rates (%)	Please refer to the SEAI CETPartnership information document for more information on funding rates.
Types of cost	Please refer to the SEAI RDD Budget policy. SEAI-RDD-Budget-Policy.pdf .
RDI approaches and TRLs	No specific requirements.

Other requirements/guidelines

Eligible project proposals include projects that:

- meet CETPartnership eligibility criteria.
- address the overarching SEAI RDD programme objectives.
- are submitted by eligible organisations.
- submit full complete applications.
- are submitted in advance of the SEAI deadline of 12 noon (Irish Standard Time) Thursday 19th March 2026.

Lead Irish applicants must outline in their national application to SEAI how the SEAI-funded project work is aligned with SEAI remit and the objectives of the SEAI National Research, Development and Demonstration Funding Programme.

ISRAEL – MINISTRY OF NATIONAL INFRASTRUCTURE, ENERGY AND WATER RESOURCES (MOE)

<p>Proposal submission</p>	<p><u>ADDITIONAL NATIONAL APPLICATION</u></p> <p>In addition to the project proposal which shall be submitted on the CETPartnership Submission Platform, Italian participants are requested to submit a national additional application to MUR, through the national web platform, at the following link:</p> <p>https://banditransnazionali.mur.gov.it/ [NEW PLATFORM – ACCESS WITH ‘SPID’ REQUIRED]</p> <p>The national additional application must be submitted by the same deadline established in the international joint call. Participant who does not submit national documentation by the deadline are considered not ineligible for funding.</p> <p>More information on the national documentation to be submitted to MUR is available at the web page dedicated to the CETPartnership Joint Call 2025: http://www.ricercainternazionale.mur.gov.it/era/european-partnership-2021-27/cetp.aspx</p> <p>It is recommended to contact the National Contact Persons already in early stage of project preparation.</p> <p>The admission to funding is subject to the adoption of the necessary accounting and administrative measures for the allocation of the resources.</p>
<p>Project Consortium Partners</p>	<p><u>ELIGIBLE ORGANISATIONS</u></p> <p>MUR-FIRST</p> <p>Eligible partners are the following legal entities having stable organisation in Italy:</p> <ul style="list-style-type: none"> • Enterprises (legally registered in the Register of Companies): large companies, medium companies and SMEs, spin offs etc., including municipal/local governments’ investee/in-house companies. • Higher education institutions (State universities and legally recognised universities as defined in L. 29 July 1991, n. 243) and their consortia. • Public research institutions (as listed in D.Lgs. n. 218/2016 Art 1).

Project Consortium Partners (cont.)

- **Public and private research organisations ('organismo di ricerca')** including research foundations in accordance with EU Reg. n. 651/2014 of the European Commission – June 17, 2014.
- **Other not-for-profit registered legal entities** (foundations and associations provided they are registered legal entities) are eligible if participating in cooperation with one (or more) Italian Higher Education Institution(s) or public or private Research Organisation(s)/Institution(s).

MUR-ERDF

Eligible partners are the following legal entities carrying out research activities in the regions **Basilicata, Calabria, Campania, Molise, Puglia, Sardegna, Sicilia**:

- **Enterprises** (legally registered in the Register of Companies): large companies, medium companies and SMEs, spin offs etc., including municipal/local governments' investee/in-house companies.
- **Higher education institutions** (State universities and legally recognised universities as defined in L. 29 July 1991, n. 243) and their consortia (jointly with a private company/enterprise).
- **Public research institutions** (as listed in D.Lgs. n. 218/2016 Art 1) (jointly with a private company/enterprise).
- **Public and private research organisations ('organismo di ricerca')** including research foundations in accordance with EU Reg. n. 651/2014 of the European Commission – June 17, 2014 (jointly with a private company/enterprise).

IMPORTANT NOTICE 1:

Public and private legal entities carrying out research activities in a local unit (laboratory, research centre, workshop, plant, branch, agency etc.), located in the **regions of: Basilicata, Calabria, Campania, Molise, Puglia, Sardegna, Sicilia**, are supported primarily through **MUR-ERDF** and shall therefore **select the appropriate option in the application form** (transnational and national).

IMPORTANT NOTICE 2:

For applicants eligible for **MUR-ERDF**, the **joint participation with at least a private company** in the consortium is mandatory.

IMPORTANT NOTICE 3:

**Project Consortium
Partners (cont.)**

Other specific eligibility requirements or restrictions may apply to applicants supported by **MUR-ERDF**. Further details will be included in the “Avviso integrativo nazionale”, published at a later stage.

ADDITIONAL ELIGIBILITY CRITERIA

Applicants shall:

- not be defaulting with regard to other funding received by the Ministry of University and Research
- not have requested/got any other funding for the same project
- be compliant to the Italian law “D.Lgs. n 159 del 6/09/2011 e successive modificazioni ed integrazioni”
- not be subject to bankruptcy proceedings as of art. 5, comma 4, letter b) of DM 1314/2021 or must not be a company in difficulty according to the definition under number 18) of article 2 "Definitions" of Regulation (EU) no. 651/2014
- be in compliance with the obligations laid down in the contributory and social security regulations (DURC)

Applicants shall demonstrate their viability and financial soundness regarding their own contribution to the project.

For any private entity, if the following financial criteria listed under a) and b), calculated using the data reported in the last approved balance sheet, are not fulfilled, the applicant can be funded only if a bank guarantee is provided:

a) $CN > (CP - I)/2$

Where:

- CN = net assets (Capitale netto)
- CP = sum of the costs of all the projects for which public funding has been requested by the participant during the year
- I = sum of the contributions received, approved or requested for the same projects

b) $OF/F < 8\%$

Where:

- OF = financial charges (Oneri finanziari)
- F = turnover (Fatturato)

National/regional requirements and guidelines on proposals

Call Modules and topics	CM2025-01 “Multi-vector interactions between the integrated energy system and industrial frameworks” CM2025-05 “Hydrogen and renewable fuels”
Proposal submission	Once proposals are selected for funding, the consortia will be notified by Call Management and subsequently, the national granting process will be initiated by NWO. An application for NWO funding has one national main applicant, responsible for scientific and financial management. National co-applicants within an application for NWO funding are allowed. <ul style="list-style-type: none"> • A researcher may only request NWO funding for one project (part of a European consortium) in this Call for proposals, either as main applicant or co-applicant within an application for NWO funding. • Researchers employed at a university in the Kingdom of the Netherlands, umc or a research organisation, as referred to in Article 1.1, first paragraph, subparagraphs c to h of the NWO Grant Rules 2024 may not apply for a scientific or post-doc position for themselves.
Project Consortium Partners	An application for funding from NWO may consider the following roles:

1. National main applicant (mandatory): the applicant who leads the application to NWO and is the foreseen national project leader, in case a project is granted.
2. National co-applicant (optional): national applicants in addition to the national main applicant with an active role and responsibility in realising the project and requesting funding from NWO.

1. National main applicants

Researchers may submit an application as a national main applicant if they have a tenured position (and therefore a paid position for an indefinite period*) or a tenure track agreement at one of the following research organisations:

- universities and universities of applied sciences (UAS) as referred to in Article 1.8 paragraph 1 of the Higher Education and Scientific Research Act and universities listed in the [Policy Rules for Universities located in the Kingdom of the Netherlands](#);
- university medical centres by which is meant academic hospitals as referred to in Article 1.13 paragraph 1 of the Higher Education and Scientific Research Act;
- institutes affiliated to the Royal Netherlands Academy of Arts and Sciences (KNAW) or NWO;
- TO2 institutions;
- Netherlands Cancer Institute;
- the Max Planck Institute for Psycholinguistics in Nijmegen;
- Naturalis Biodiversity Center;
- Advanced Research Centre for NanoLithography (ARCNL);
- Princess Máxima Center.

*Professors employed at a university of applied sciences and researchers employed at a TO2 institute may also submit as a main national applicant provided that they have at least a salaried position for a limited period of time.

Persons with a zero-hour employment agreement or with a contract for a limited period of time (other than a tenure track appointment) may not submit a proposal.

It could be the case that the applicant's tenure track agreement ends before the intended completion date of the project for which funding is applied for, or that before that date, the applicant's tenured contract ends due to the applicant reaching retirement age. In that case, the applicant needs to include a statement from their employer in which the organisation concerned guarantees that the project and all project members for whom funding has been requested will receive adequate supervision for the full duration of the project. Such a statement should be submitted in the full proposal stage.

The main national applicant employed by a university of applied sciences or TO2 institute whose employment ends before the intended completion date of the project for which the grant is being applied for must also attach such a statement.

Applicants with a part-time contract should guarantee adequate supervision of the project and all project members for whom funding is requested.

2. National co-applicants

Researchers interested to apply as a national co-applicant, i.e. together with a national main applicant, may submit as a national co-applicant if they have a tenured position (and therefore a paid position for an indefinite period*) or a tenure track agreement at one of to the research organisations listed under 'National main applicants' or at other research organisations as referred to in Article 1.1, paragraph 4 of the NWO Grant Rules 2024 that meet the following cumulative conditions:

- be established in the Netherlands;
- be a foundation, association or legal entity ("publiekrechtelijke rechtspersoon") governed by public law;
- have as its primary goal the independent conduct of its own fundamental research or industrial research or with widely disseminating the results of those activities through teaching, publications or knowledge transfer;
- be able to state that the organisation keeps separate accounts with regard to economic/non-economic activities and that undertakings with decisive influence on the organisation do not enjoy preferential access to the organisation's results.

Please note: Prior to the submission of an application, NWO assesses on the basis of the above-mentioned conditions whether an organisation complies

	<p>with Article 1.1, paragraph 4 of the NWO Grant Rules 2024 and may therefore participate as a national co-applicant. NWO performs this assessment to preclude the granting of prohibited state aid.</p> <p>The organisation of the prospective national co-applicant must provide the following documents no less than 10 working days prior to the submission deadline for pre-proposals (meaning no later than 25 September 2025, 14:00:00 CEST) by email to cetpartnership@nwo.nl:</p> <ul style="list-style-type: none"> • a recent extract from the Netherlands Chamber of Commerce; • the deed of incorporation or current articles of association; • the latest available annual accounts accompanied by an audit statement¹; • the completed form ‘Declaration research organisation’, available on the funding page of this Call for proposals on the NWO website. <p>Other relevant documentation may be added. NWO may request additional information if the above documents are not sufficiently conclusive to determine whether the organisation may act as a national co-applicant.</p> <p>If the organisation of the prospective national co-applicant does not submit the necessary documents for this assessment in time, NWO cannot accept the organisation as a national co-applicant. If the addition of new co-applicants to the consortium is allowed in the full proposal and these new co-applicants are not affiliated to a research organisation listed above, these conditions will also be checked for this organisation/these organisations. The documents listed above as a requirement in the pre-proposal stage must then be submitted by email no less than 10 working days before the submission deadline for full proposals (meaning no later than 26 February 2026, 14:00:00 CET).</p>
Project duration	Maximum of 36 months
Project budget	Maximum of € 400,000 per project
Funding request	

¹ Organisations that are not legally obliged to have their annual accounts audited do not need to provide such an auditor’s statement. They must however be able to demonstrate that this legal requirement is not applicable to the organisation concerned.

Funding rates (%)	Basic research	Industrial/ applied research	Experimental develop- ment/innovation
Large enterprises	-	-	-
Medium enterprises	-	-	-
Small enterprises	-	-	-
Universities, public re- search organisations	100	100	100
Public authorities	-	-	-
Associations without eco- nomic activities, NGOs	-	-	-
Types of cost	<p>The available budget modules are listed below:</p> <ul style="list-style-type: none"> • <i>Personnel</i> <ul style="list-style-type: none"> ○ Personnel at a university in the Kingdom of the Netherlands, umc or a research organisation, as referred to in Article 1.1, first paragraph, subparagraphs c to h of the NWO Grant Rules 2024 salary costs can be claimed for the following positions: <ul style="list-style-type: none"> ○ Postdoc: at least 1 position, for at least 12 months, for at least 0.5 fte, according to UNL or NFU rates, a benchfee is available; ○ Non-scientific personnel (NWP): according to UNL or NFU rates; ○ Research leave: max. 5% of the grant amount, according to UNL or NFU rates. ○ Personnel of universities of applied sciences, TO2 institutes and other research organisations using the Government Tariff Manual (HOT), Table 2, under 2.2 'average total salary cost per salary scale', column 'Hourly rate productive hours, excluding VAT'; ○ Students: according to the usual internship fee or HOT rates, may be added to material costs • <i>Material</i>: for project-specific material costs, up to 25% of the grant amount. Subsequently, up to 50% of the material budget can be used for work by third parties; • <i>Knowledge utilisation</i>: for activities that promote the use of knowledge from the research following the Impact Plan approach, mandatory 5–20% of the grant amount; • <i>Project management</i>: up to 5% of the grant amount 		

	<p>Please note the following:</p> <ul style="list-style-type: none"> • PhD positions cannot be applied for in this call, due to the maximum project duration of 3 years. • NWO funds project-related costs. Therefore overhead costs are not eligible for NWO funding. <p>A more detailed explanation of the budget modules and eligible costs can be found on the funding page on the NWO website.</p> <p>It is <u>recommended</u> to use the NWO budget template in the pre-proposal stage to confirm eligibility of budget items. For full proposals, it is <u>mandatory</u> to submit the NWO budget form for the funding requested at NWO at the time of the transnational deadline. Please submit it to cetpartnership@nwo.nl.</p> <p>Do not hesitate to contact the national contact point in case of questions via the aforementioned email address.</p>
<p>RDI approaches and TRLs</p>	<p>TRL level as specified per eligible Call Module (see module description in call for proposals).</p>
<p>Other requirements/guidelines</p>	<p>The NWO Grant Rules 2024 and the Agreement on the Payment of Costs for Scientific Research are applicable to all applications for NWO funding. Any arrangements made regarding the grant from NWO, for instance in a Consortium Agreement, must comply with the NWO Grant Rules 2024 and the European legislation on state aid.</p> <p>As stipulated in the NWO Grant Rules, Article 3.2, paragraph 2, the project cannot start until the conditions set out in the grant award decision regarding the start of the project are met. Please note, these conditions will include a signed Consortium agreement by all partners in the transnational project.</p> <p>Under the Dutch General Administrative Law Act, any interested party has the right to lodge an objection to the decision taken by NWO within six weeks of the date of the decision letter. Further information about the objections procedure can be found on the NWO website: https://www.nwo.nl/en/lodging-an-objection</p> <p>NWO will, if necessary, apply a one-off indexation of personnel costs when awarding the grant. The UNL/NFU/HOT rate at the time of the decision date applies and the date on which the rates take effect is used for this purpose.</p>

CETPartnership Joint Call 2025

	<p>Submission of financial and scientific reports at national level is required in accordance with the rules of NWO. Granted consortia will be informed in due time.</p>

Contact	<p>Main contact point: Aage Stangeland, ast@rcn.no</p> <p>Thematic contact points:</p> <ul style="list-style-type: none"> • Renewable energy (CM2025-03A): Marianne Haavardsholm Aandahl, mhaa@rcn.no; • CCS (CM2025-04): Aage Stangeland, ast@rcn.no; • Hydrogen and renewable fuels (CM2025-05): Ymir Kalmann Frodason, ykf@rcn.no • Heating and cooling (CM2025-06): Per Arne Karlsen, pak@rcn.no; • Industrial energy system (CM22025-08): Chido Nnoli, cnn@rcn.no • Built environment (CM2205-09): Andreas Bratland, abr@rcn.no

National/regional requirements and guidelines on proposals

<p>Call Modules and topics</p>	<p>Eligible Call Modules for Norwegian applicants:</p> <ul style="list-style-type: none"> • Call Module 03A: Advanced renewable energy (RE) technologies for power production (ROA) • Call Module 04: Carbon capture, utilisation and storage (CCUS) • Call Module 05: Hydrogen and renewable fuels • Call Module 06: Heating and cooling technologies • Call Module 08: Integrated industrial energy systems • Call Module 09: Clean energy integration in the built environment <p>Norwegian applicants must meet the following conditions:</p> <p>For Call Modules 3A:</p> <ul style="list-style-type: none"> ○ The Norwegian activities must comply with priorities listed in the Portfolio plan for Energy and transport and the priorities in the Energy 21 strategy. ○ The projects shall address one of the following topics: <ul style="list-style-type: none"> ▪ Wind Energy (onshore/offshore) ▪ Solar PV <p>For Call Module 4:</p> <ul style="list-style-type: none"> ○ The Norwegian activities must comply with topics listed in the CLIMIT Program Plan. ○ Norwegian activities must lead to long-term CO₂ storage. Hence, CCU activities without long-term CO₂ storage are in-eligible. <p>For Call Modules 5, 6, and 9:</p> <ul style="list-style-type: none"> ○ The Norwegian activities must comply with priorities listed in the Portfolio plan for Energy and transport and the priorities in the Energy 21 strategy. <p>For Call Module 8:</p> <ul style="list-style-type: none"> ○ The Norwegian activities must comply with priorities listed in the Portfolio plan for Energy and transport and the priorities in the Energy 21 strategy. ○ Projects targeting the metallurgical industry can not be funded, because this sector is already very well covered in national R&D calls.
---------------------------------------	---

**Call Modules and topics
(cont.)**

The Norwegian team of participants must fulfil the criteria of one of these two alternative project types:

1. Knowledge building project

- Projects aimed at developing new knowledge and generating research competence needed by society or the business sector to address important societal challenges.
- Collaboration between research group(s) and relevant actors from outside the research sector is required. The Norwegian team must include at least one approved Norwegian research organisation and at least two relevant Norwegian companies.
- Companies are not eligible for financial support.
- The Norwegian applicants must document (in their budget) that at least 10 % of the Norwegian total costs will be used by the Norwegian industrial or end-user partners.
- The Norwegian industrial or end-user partners may contribute with financial support (cash) in addition to the required in-kind efforts.
- Norwegian companies must be registered as self-financed partners in the CETP submission portal.
- Letters of Intent from all Norwegian companies are required in stage 1 (pre-proposal), and Letters of Commitment in stage 2 (full proposal).
- Note: Applications without required industrial participation at stage 1 will be in-eligible and not evaluated for potential proceedings to stage 2.

2. Innovation project for the industrial sector

- Open for projects in which companies are engaged in business-led innovation and where research and development (R&D) is a critical part of the innovation process.
- The main Norwegian applicant must be a Norwegian company.
- Norwegian research organisation(s) may be partner(s). The cost for research organisation(s) must be covered by the company(ies).
- Letters of Intent from all Norwegian companies are required in stage 1 (pre-proposal), and Letters of Commitment in stage 2 (full proposal).
- The maximum funding rate for the Norwegian company(ies) is 50%.

<p>Proposal submission</p>	<p>In addition to submitting an application to CETP, Norwegian applicants must submit the following on national level to RCN:</p> <ul style="list-style-type: none"> • A detailed budget for Norwegian partners specified in Norwegian kroner (NOK). This Template.xlsx must be used. • Letters of Intent (LoI) from all Norwegian companies are required in stage 1 (pre-proposal), and Letters of Commitment (LoC) from all Norwegian companies are required in stage 2 (full proposal). <p>The budget and the letters (LoI and LoC) must be sent on email to the RCN contact person, Aage Stangeland, ast@rcn.no.</p> <p>Due date for submission of budget and letters (LoI, LoC) are two weeks after the deadlines for submitting applications to CETP. This mean that budget and letters (LoI, LoC) must be submitted to RCN 23 October 2025, 23:59 CEST for stage 1 (pre-proposal stage) and 26 March 2026, 23:59 CET for stage 2 (full proposal stage).</p> <p>Please use exchange rate between NOK and Euro at the due date for submission of pre-proposals. Specify the exchange rate applied in your application. The applied exchange rate will be binding for all proposals invited further to full proposal and will not be subject to any change.</p>
<p>Project Consortium Partners</p>	<p>The call is open to approved Norwegian research organisations, actors from public sector entities, non-governmental organisations, and companies from the business sector.</p> <p>The main Norwegian partner must be either an approved Norwegian research organisation or a Norwegian company that has been issued an enterprise number under the Norwegian Register of Business Enterprises (Brønnøysundregistrene) and carry out economic activity in Norway.</p>
<p>Project duration</p>	<p>From two to three years.</p>
<p>Project budget</p>	<ul style="list-style-type: none"> • Maximum NOK 10 M for CM2025-04 projects. • Maximum NOK 6 M for projects under CM2025-03A, CM2025-05, CM2025-06, CM2025-08 and CM2025-09.
<p>Funding request</p>

National/regional requirements and guidelines on proposals

Call Modules and topics	All Call Modules eligible
Proposal submission	<p>Participants from Poland will be informed and invited to submit a national application once the international evaluation and the ranking list have been established (in all likelihood in June/July 2026).</p> <p>Only projects recommended for funding will be asked to submit a national application form (NAF).</p> <p>All eligible entities invited to submit Polish full proposal are obliged to use European Central Bank's exchange rate in force on the day the call is opened.</p> <p>If more than one Polish entity participates in the project, the national application must be submitted jointly by a consortium (group of entities) comprising Polish entities only.</p>
Project Consortium Partners	<ul style="list-style-type: none"> Enterprises¹ – micro, small, medium or large, Groups of enterprises comprising at least two enterprises,

¹ as defined in Annex I to Commission Regulation (EU) No 651/2014 of 17 June 2014 declaring certain categories of aid compatible with the internal market in application of Articles 107 and 108 of the Treaty (hereinafter referred to as "Commission Regulation (EU) No 651/2014");

Project Consortium Partners (cont.)	<ul style="list-style-type: none"> Groups of entities comprising at least one research organisation² and at least one enterprise. <p>Participating entities must be established as legal persons³ and conduct business, R&D activity or other activity on the territory of the Republic of Poland, confirmed by an entry into the relevant Polish official register⁴.</p> <p>For a group of entities to participate as an Applicant in the call, it must formally exist on the date the pre-proposal is submitted. This existence must be evidenced by an agreement made by the members – at least conditionally – to create the group of entities (consortium).</p>		
Project duration	24–36 months		
Project budget			
Funding request	700 000 EUR per project or all Polish partners in one project		
Funding rates (%)	Basic research	Industrial/ applied research	Experimental develop- ment/innovation
Large enterprises	not eligible	Up to 50+5/15/25 (max 75%)	Up to 25+5/15/25 (max 50%)
Medium enterprises	not eligible	Up to 50+10+5/15/25 (max 80%)	Up to 25+10+5/15/25 (max 60%)
Small enterprises	not eligible	Up to 50+20+5/15/25 (max 80%)	Up to 25+20+5/15/25 (max 70%)
Universities, public re- search organisations	not eligible	Up to 100%	Up to 100%
Public authorities	not eligible	not eligible	not eligible
Associations without eco- nomic activities, NGOs	not eligible	not eligible	not eligible
Notes	Funding quotas for Polish participants may reach up to 100% for universities and research organisations. For enterprises, the quota will be determined on a case-by-case basis, taking into account company size and the type of research and development activity, pursuant to Section 2 of the		

² Defined in Commission Regulation (EU) No 651/2014;

³ Legal person – an entity that is capable of having and amending legal rights and obligations within a certain legal system, in particular to enter into contracts, sue and be sued, excluding natural persons;

⁴ if applicable. Does not apply to legal persons that are not obliged to register in a relevant Polish official register according to Polish law.

<p>Notes (cont.)</p>	<p>Regulation of the Minister of Science and Higher Education of 19 August 2020 on granting state aid by the National Centre for Research and Development (Journal of Laws 2020, item 1456).</p> <p>In any case only Industrial Research and Experimental Development are eligible for funding. Other activities (e.g. coordination, dissemination, management) shall not be included into separate tasks.</p> <p>If an enterprise applies individually at the national level (i.e. there is no Polish group of entities or group of enterprises), the state aid intensity for industrial research and experimental development shall not be increased on the basis of “effective cooperation” between enterprises or between enterprises and research organisations.</p>
<p>Types of cost</p>	<p>The eligible costs shall be the following:</p> <ol style="list-style-type: none"> 1. personnel costs (researchers, technicians and other supporting staff employed on the research project); 2. costs of subcontracting, costs of consultancy and equivalent services used exclusively for the research activity; this cost category shall not exceed 70% of all eligible costs of a project; subcontracting a consortium partner is allowed only in justified cases, which shall be verified by a national panel of experts 3. operating costs including (depending on the type of eligible institution): <ul style="list-style-type: none"> ○ Research Organisations: <ul style="list-style-type: none"> ▪ costs of instruments and equipment, technical knowledge and patents are eligible only to the extent and for the period when they are used for the research project; if such instruments or pieces of equipment are not used for their entire useful life within the research project, only the depreciation costs corresponding to the life of the research project, as calculated on the basis of good accounting practice, shall be considered eligible; ▪ costs for buildings and land, to the extent and for the period when they are used for the research project; with regard to buildings, only the depreciation costs corresponding to the life of the research project, as calculated on the basis of good accounting practice shall be considered eligible; for land, costs of commercial transfer or actually incurred capital costs shall be eligible;

Types of cost (cont.)

- other operating costs including: costs of materials, supplies and similar products incurred directly as a result of the research activity; training costs; travel costs including conference fees; cost of required external audit, costs of project promotion (e.g. articles, project webpage);
 - Enterprises:
 - costs of instruments and equipment, technical knowledge and patents to the extent and for the period when they are used for the research project; if such instruments or pieces of equipment are not used for their entire useful life within the research project, only the depreciation costs corresponding to the life of the research project, as calculated on the basis of good accounting practice, shall be considered eligible;
 - costs for buildings and land, to the extent and for the period when they are used for the research project; with regard to buildings, only the depreciation costs corresponding to the life of the research project, as calculated on the basis of good accounting practice shall be considered eligible; for land, costs of commercial transfer or actually incurred capital costs shall be eligible.
- 4. **additional overheads** incurred indirectly as a result of the research project (depending on the type of eligible institution);
 - Research Organisations:
 - additional overheads for research organizations should account 25% of all eligible direct costs; That costs (4) are counted as a multiplication by percentage given above (called x%) and the rest of direct costs for research organizations, excluding subcontracting (2); It means $4=(1+3)*25\%$.
 - Enterprises:
 - additional overheads for enterprises include also other operating costs, e.g. costs of materials, supplies and similar products incurred directly as a result of the research activity, training costs; travel costs including conference fees; cost of required external audit, costs of project promotion (e.g. articles, project webpage). That costs should account 20% of all eligible direct project costs;

Types of cost (cont.)	<p>Additional overheads (4) are counted as a multiplication by percentage given above (called x%) and the rest of direct costs for enterprises; It means $4=(1+2+3)*20\%$.</p> <p>Projects requesting more than PLN 3 million funding are entitled to claim the cost of the audit. For more details on eligible costs, applicants are advised to check the guidelines in the call announcement on NCBR webpage.</p>
RDI approaches and TRLs	<p>Type of research:</p> <ul style="list-style-type: none"> • Industrial/Applied research • Experimental development <p>TRL: 3-8</p> <p>Polish applicants shall declare the TRL of their research in the pre-proposals and full proposals.</p>
Other requirements/guidelines	<p>All proposals must comply with national regulations, inter alia:</p> <ul style="list-style-type: none"> • The Act of 20 July 2018 - Law on Higher Education and Science; • The Act of 30 April 2010 on the National Centre for Research and Development; • The Regulation of the Minister of Science and Higher Education of 19 August 2020 on granting state aid by the National Centre for Research and Development, which is aligned with the Commission Regulation (EU) No 651/2014 of 17 June 2014 declaring certain categories of aid compatible with the internal market in application of Articles 107 and 108 of the Treaty (General Block Exemption Regulation); • The Regulation of the Minister of Science and Higher Education of 17 September 2010 on the detailed performance of tasks of the National Centre for Research and Development.

PORTUGAL – FUNDAÇÃO PARA A CIÊNCIA E A TECNOLOGIA (FCT)

Last updated 29.05.2025

Information on the Funding Organisation in the Call

Budget	FCT's budget allocation for this call is 500.000,00€.
Anticipated number of projects to fund	4 to 5 (four to five).
Website	Clean Energy Transition Partnership Call 2025 - FCT
Contact	<p>Joana Pinheiro T: [+351] 213 911 567 joana.pinheiro@fct.pt</p> <p>Alexandre Maurício T: [+351] 213 917 648 alexandre.mauricio@fct.pt</p>

National/regional requirements and guidelines on proposals

Call Modules and topics	<p>Applications requesting funding from FCT under this call will be subject to Regulation on projects funded solely by national funds, published in Regulation No. 999/2016, in its current wording, that is, as amended and republished by Regulation No. 5/2024 of 3 January, and corrected by Rectification Statement No. 366/2024/2, published in the <i>Diário da República</i>, 2nd series, No. 100, of 23 May 2024, and by all other applicable national and European Union legislation.</p> <p>FCT WILL FUND:</p> <ul style="list-style-type: none"> • CM2025-01 “Multi-vector interactions between the integrated energy system and industrial frameworks” • CM2025-02 “Energy system flexibility: renewables production, storage, and system integration” • CM2025-03A (ROA) “Advanced renewable energy (RE) technologies for power production” • CM2025-04 “Carbon capture, utilization, and storage (CCUS)” • CM2025-05 “Hydrogen and renewable fuels” • CM2025-06 “Heating and cooling technologies”
--------------------------------	--

Call Modules and topics (cont.)	<ul style="list-style-type: none"> • CM2025-09 “Clean energy integration in the built environment”
Proposal submission	<p>Statement of Commitment:</p> <ul style="list-style-type: none"> • Within 10 working days after the deadline for submitting the pre-proposal, a Statement of Commitment duly signed by the Researcher in Charge (partner and/or coordinator) and by the legal representant of the Portuguese Proposing Institution must be sent to joana.pinhoiro@fct.pt. • The stamp or white seal of the Portuguese Proposing Institution will not be required on a digitally signed Statement of Commitment. • Portuguese applicants of transnational consortia that <u>do not apply for funding from FCT do not need</u> to submit the Statement of Commitment to FCT.
Project Consortium Partners	<p>For information on the type of beneficiaries eligible for FCT funding under this call, see Article 3 of FCT Regulation.</p> <p>For information on the criteria of beneficiary’s eligibility, see Article 5 of FCT Regulation.</p>
Project duration	<p>Up to 36 months.</p>
Project budget Funding request	<p>The maximum amount of funding to be requested to FCT by a consortium with a Portuguese Coordinator is 200.000,00 €.</p> <p>The maximum amount of funding to be requested to FCT by a consortium with a Portuguese Project Consortium Partner beside the Coordinator is 125.000,00 €.</p> <p>If more than one Portuguese applicant participating in the same international consortium applies for funding by FCT, the combined funding demanded by all the Portuguese applicants may not exceed the maximum financial threshold for proposals with a Portuguese Coordinator or with a Project Consortium Partner beside the Coordinator. Portuguese Coordinator and/or Project Consortium Partners in the same international consortium will therefore have to share the funding that will be granted by FCT.</p> <p>For information on funding rates, see no. 2 of Article 7 of FCT Regulation.</p>

Funding rates (%)	Basic research	Industrial/ applied research	Experimental develop- ment/innovation
Large enterprises*	50%**	50%**	Non-fundable
Medium enterprises*	50%**	50%**	Non-fundable
Small enterprises*	50%**	50%**	Non-fundable
Universities, public re- search organisations*	100%	100%	Non-fundable
Public authorities*	100%	100%	Non-fundable
Associations without eco- nomic activities, NGOs*	100%	100%	Non-fundable
Notes	<p>*Please check Article 3 of FCT Regulation on projects funded solely by national funds for confirming beneficiary eligibility.</p> <p>**Please check Article 7 of FCT Regulation on projects funded solely by national funds for form of support and funding rate.</p>		
Types of cost	<p>For the purposes of defining the budget, the terms defined in Article 8 of FCT regulation apply to eligible expenses and in Article 9 to non-eligible expenses.</p> <p>In accordance with no. 1 of Article 7 of the FCT Regulation, the funding to be granted to proposals requesting funding from FCT under this call is non-reimbursable and is based on real costs. As such it must be justified through invoices paid or other accounting documents of similar probatory value, under the terms of no. 5 of Article 8 of FCT Regulation.</p> <p>Excluded from the range of eligible expenses are the salaries and other remuneration supplements of teachers, researchers and other staff with a previously established indefinite contract with the Public Administration.</p> <p>Expenditure on adapting buildings and facilities is limited to a maximum of 10% of the project's total eligible expenses.</p> <p>The project's indirect costs are based on the application of a flat rate of 25% of the direct eligible costs.</p>		
RDI approaches and TRLs	<p>Type of research: strategic (basic) research, applied research.</p> <p>TRL: Up to TRL 8.</p>		

CETPartnership Joint Call 2025

Other requirements/guidelines

For information on the criteria of projects' eligibility, see Article 6 of [FCT Regulation](#).

The percentage of time dedicated to transnational projects will **not** be added to the percentage of time dedicated to existing national projects.

	<ul style="list-style-type: none"> • Indirect costs (according to the defined rate) - Others <p>Cost items shall be allocated in compliance with the Korean National R&D Innovation Act and the relevant manual found at the following website: http://www.kaia.re.kr/portal/bbs/list/B0000050.do?option1=2&menuNo=200131</p> <p>Costs must be allocated directly to the project, incurred during the funding period in addition to normal operating expenses, correspond to the funding contract and can be proven.</p>
<p>RDI approaches and TRLs</p>	<p>Project start: TRL 3 or higher</p> <p>Project end: TRL 5 or higher</p>
<p>Other requirements/guidelines</p>	<p>Applicants are strongly encouraged to contact KAIA before submitting a pre-proposal.</p> <p>Korean applicants should begin their projects by July 2026, regardless of the start date of their consortium. Due to the end of the national program, the termination date of the agreement in Korea should be December 31st, 2028.</p>

SPAIN– AGENCIA ESTATAL DE INVESTIGACIÓN (AEI)

Last updated 22.04.2025

Information on the Funding Organisation in the Call

Budget	Initial budget: 2.000.000,00 euros
Anticipated number of projects to fund	At least 9
Website	https://www.aei.gob.es/convocatorias/buscador-convocatorias/clean-energy-transition-partnership/clean-energy-transition
Contact	Severino Falcón; E-mail: severino.falcon@aei.gob.es; +34 916038384 Irene Carlos; E-mail: era-energia@aei.gob.es

National/regional requirements and guidelines on proposals

Call Modules and topics	All
Proposal submission	<p>The projects granted by the AEI must be aligned with the main objectives described in the Plan Estatal de Investigación Científica, Técnica e Innovación.</p> <p>The instrument for funding the Spanish groups is “Proyectos de Colaboración Internacional” (Projects of International Collaboration, PCI). Applicants are encouraged to consult the PCI 2024-2 call text and especially the PCI requirements document on the national call website, as well as check their eligibility with the National Contact Point prior to the submission.</p> <p>VERY Important. NEW</p> <p>Submission of proposals at the AEI. Within one week after the CETP pre-proposal submission (until <u>October 16</u> at the latest), the Spanish PI must submit the Spanish proposal to the AEI. The PI must include a copy of the international joint proposal, the CETP application and the “Declaración responsable del investigador principal” (see Word document on the AEI website) duly signed by the Spanish principal investigator. They must send it until one week after the deadline of the call.</p> <p>You can find in the following link the documents and link to the AEI application system</p>

<p>Proposal submission (cont.)</p>	<p>https://www.aei.gov.es/convocatorias/buscador-convocatorias/clean-energy-transition-partnership/clean-energy-transition</p>
<p>Project Consortium Partners</p>	<p>The eligible beneficiaries are non-profit research organizations (such as universities, public research institutions, technological centres and other private non-profit institutions performing RDI activities in Spain) which must comply with the requirements established by this transnational call and with the rules on eligibility defined in the corresponding Spanish national funding instrument “Proyectos de Colaboración Internacional” and the PCI requirements document.</p> <p>The entities must have been previously beneficiaries of any of the AEI calls. They have to ensure contractual relationship with the Principal Investigator (PI) during all the implementation of the project.</p> <p>Spanish Principal Investigators (PIs) must:</p> <ul style="list-style-type: none"> • Be eligible to the corresponding PCI (see PCI 2024-2 as an example) call and PCI requirements document • Demonstrate experience as investigators in projects funded by the Plan Estatal I+D+i 2013-2016, Plan Estatal I+D+i 2017-2020, 2021-2023, ERC Grants, European Framework Programmes or other relevant national and international programmes. • Spanish PIs must have a contractual relation with the beneficiary covering the expected total length of the project. <p>Incompatibilities (these must be taken into account when participating in different ERA-Nets or other international initiatives):</p> <ul style="list-style-type: none"> • PIs are not allowed to apply for funding in (i) more than one proposal of this transnational call, (ii) in more than one proposal in the same PCI call and (iii) in PCI calls in consecutive years. • If the same PI submits two or more proposals in this transnational call, they will all be declared ineligible, except one, without the possibility of changing the PI. • PIs must remain unchanged between the proposal to this transnational call and the corresponding PCI call should the proposal be recommended for funding. • A PI that has been granted a PCI the previous year will be declared ineligible, without the possibility of changing the PI. <p>Important:</p>

<p>Project Consortium Partners (cont.)</p>	<ul style="list-style-type: none"> Applicants must include in the CETP application the full name of the PI and the full name of their institution as listed in the “Sistema de Entidades” (SISEN). PIs will be declared ineligible if they submit, as PIs or as coordinators, more than one preproposal to this transnational call, if they have submitted any proposal to another international call which may be funded through Spanish PCI calls in the same or in consecutive years, or if they have obtained a PCI project in the previous year. Financing of two PCI projects, with the same PCI, and in the same or consecutive years, is not allowed. <p>It is very important to check the eligibility before sending the preproposal to avoid unwanted situations and damages to third parties.</p>																
<p>Project duration</p>	<p>3 years</p>																
<p>Project budget</p>																	
<p>Funding request</p>	<p>General funding criteria:</p> <ul style="list-style-type: none"> The AEI will avoid double funding (overlapping with other EU or National funding) and will not grant projects or parts of projects already funded. Only Personnel costs for new temporary employment dedicated to the project are eligible. This must be clearly stated in the contract. The costs of permanent staff linked to the beneficiary entity or members of the research team will <u>not be</u> considered eligible costs. Direct costs such as current costs, disposable materials, travelling expenses, coordination costs and other costs that can be justified as necessary to carry out the proposed activities. Overheads (25% of all direct costs, including the subcontracting costs). The following funding limits of direct costs are considered eligibility criteria. Proposals not respecting these limits could be declared ineligible. <table border="1" data-bbox="550 1693 1461 1984"> <thead> <tr> <th>Maximum funding per project</th> <th>Maximum DC (€)</th> <th>IC (25%) (€)</th> <th>TOTAL (€)</th> </tr> </thead> <tbody> <tr> <td>One AEI applicant</td> <td>140.000</td> <td>35.000</td> <td>175.000</td> </tr> <tr> <td>One AEI applicant - coordinator</td> <td>220.000</td> <td>55.000</td> <td>275.000</td> </tr> <tr> <td>Two AEI applicants- one coordinator</td> <td>260.000</td> <td>65.000</td> <td>325.000</td> </tr> </tbody> </table>	Maximum funding per project	Maximum DC (€)	IC (25%) (€)	TOTAL (€)	One AEI applicant	140.000	35.000	175.000	One AEI applicant - coordinator	220.000	55.000	275.000	Two AEI applicants- one coordinator	260.000	65.000	325.000
Maximum funding per project	Maximum DC (€)	IC (25%) (€)	TOTAL (€)														
One AEI applicant	140.000	35.000	175.000														
One AEI applicant - coordinator	220.000	55.000	275.000														
Two AEI applicants- one coordinator	260.000	65.000	325.000														

Funding request (cont.)	<p>Additional € 30.000 (direct costs) can be granted for the entire proposal if the work plan includes substantial experimental tasks.</p> <p>The previous table shows that:</p> <ul style="list-style-type: none"> Only ONE applicant asking funding for AEI is allowed per proposal as partner, Two AEI applicants are allowed in the same proposal if one of them is acting as coordinator These amounts refer to 3 years projects. In case of shorter projects, the amount will be adjusted accordingly <p>Scientific criteria</p> <ul style="list-style-type: none"> Research and innovation activities in all CETP topics are eligible. <u>Mere diffusion, communication or other activities will not be eligible for funding.</u> <p>Spanish investigators are strongly encouraged to include the Spanish industrial sector in the transnational consortia. Spanish Industrial partners can apply to CDTI (participant in the CETP calls) for funding.</p>		
Funding rates (%)	Basic research	Industrial/ applied research	Experimental develop- ment/innovation

	<p>Eligible Costs:</p> <ul style="list-style-type: none"> Personnel costs for temporary employment contracts (PI contract excluded). The costs of permanent staff linked to the beneficiary entity or members of the research team will not be considered eligible costs. 		

<p>Types of cost (cont.)</p>	<ul style="list-style-type: none"> • Direct costs such as current costs, small scientific equipment, disposable materials, travelling expenses, coordination costs, and other costs that can be justified as necessary to carry out the proposed activities. • Overheads (25 % of all direct costs, including the subcontracting costs). <p>Other funding criteria:</p> <ul style="list-style-type: none"> • Centers formed by different Spanish legal entities will be considered as a unique entity, and thus the maximum funding should not exceed the limits per proposal established above (for example, mixed centers). • Two centres or institutions belonging to the Consejo Superior de Investigaciones Científicas (CSIC) will be treated as two separate partners one from another when one of them is acting as Coordinator of the proposal and their tasks and identity in the project are sufficiently separated and justified. • The final funding will take into account the transnational evaluation of the collaborative proposal, the scientific quality of the Spanish group, the added value of the international collaboration, the participation of Spanish industry and stakeholders and the financial resources available.
<p>RDI approaches and TRLs</p>	<p>N/A</p>
<p>Other requirements/guidelines</p>	<p>Further requirements: In addition to the national regulations, specific rules for the consortia may be applicable within the transnational call; please read carefully the Joint Call text and all the related instructions.</p> <p>Important and mandatory acknowledgement: Any publication or dissemination activity resulting from the granted projects must acknowledge funding by the AEI: “Project (reference nº XX) funded by the Agencia Estatal de Investigación through the PCI (year) call (or its equivalent)”.</p> <p>Data Protection: By submitting a grant application to the AEI, the applicants consent to communication of the data contained in the application to other public administrations, with the aim of further processing of the data for historical, statistical or scientific purposes, within the framework of the Organic Law 3/2018, of December 5, on Personal Data Protection and Guarantee of Digital Rights.</p> <p>Open Access and Open Data policy</p> <p>Applicants should comply with Open Access/Open Data specified in the respective PCI call or equivalent. The results of the funded research actions, including both the results disseminated through scientific publications and</p>

Other requirements/guidelines (cont.)

the data generated in the research, must be available in open access, with the exceptions indicated in the PCI call or equivalent.

Do No Significant Harm (DNSH) principle:

The projects granted under this call must comply with the DNSH criteria (see Article 6.5 of the [PCI 2022-2](#)).

AEI – ANNEX. “Declaración responsable”

NOTA IMPORTANTE

La presente declaración responsable se atenderá a lo establecido en el artículo 69 de la Ley 39/2015, de 1 de octubre, del Procedimiento Administrativo Común de las Administraciones Públicas.

Según el citado precepto, la inexactitud, falsedad u omisión, de carácter esencial, de cualquier dato o información que se incorpore a una declaración responsable o a una comunicación, o la no presentación de la documentación que sea en su caso requerida para acreditar el cumplimiento de lo declarado, determinará la imposibilidad de continuar con el procedimiento dando lugar a la desestimación de la ayuda o en su caso su revocación, sin perjuicio de las responsabilidades penales, civiles o administrativas a que hubiera lugar.

Asimismo, se recuerda que tal y como establece el artículo 58.a) de la Ley 38/2003, de 17 de noviembre, General de Subvenciones, se considerará falta muy grave la obtención de una subvención falseando las condiciones requeridas para su concesión u ocultando las que la hubiesen impedido o limitado.

DECLARACIÓN RESPONSABLE

D/Dña....., NIF:....., con domicilio en....., teléfonos de contacto: en nombre propio y como investigador(a) principal español(a) de la propuesta con título y acrónimo de la convocatoria del año en la que participa la Agencia Estatal de Investigación (AEI) como agencia financiadora española.

DECLARO RESPONSABLEMENTE EN NOMBRE PROPIO Y COMO INVESTIGADOR(A) PRINCIPAL DE LA PROPUESTA QUE:

1. Estoy en posesión del grado de doctor/a, o
2. Pertenzo a un centro contemplado en el Directorio de centros tecnológicos y centros de apoyo a la innovación tecnológica regulados por el Real Decreto 2093/20228, estoy en posesión de la titulación universitaria de licenciado/a, ingeniero/a, arquitecto/a o graduado/a, y, además, cumplo con una de las siguientes condiciones:
 - a. Tengo acreditada experiencia en actividades de I+D+i durante al menos cinco años.
 - b. He dirigido proyectos de investigación en el marco de las convocatorias de proyectos de I+D+i del plan estatal de I+D+i 2013-2016 o posteriores
3. Cuento con autorización expresa de la entidad beneficiaria para participar en la solicitud de la propuesta(ACRONIMO).

4. No estoy contratado/a con cargo a los fondos obtenidos en ninguna convocatoria de los planes estatales de I+D+i actual o anteriores, *con excepción* de las correspondientes al Programa Estatal de Promoción del Talento y su Empleabilidad en I+D+i o equivalentes en las que se requiera estar en posesión del grado de doctor/a, o de las ayudas «Severo Ochoa» y «María de Maeztu» de la AEI.
5. Tengo una relación funcionarial, estatutaria, laboral u otro vínculo profesional con la entidad beneficiaria de la ayuda o con otra entidad que cumpla los requisitos de elegibilidad de las ayudas durante toda la duración de la acción¹, o
6. En el caso de que el vínculo profesional con la entidad beneficiaria sea menor a la duración de la acción, aporto una declaración de la entidad beneficiaria comprometiéndose a mantener la vinculación durante toda la duración de la acción.
7. En el caso de que mi vinculación laboral no sea con la entidad beneficiaria sino con otra, cuento con la autorización expresa de ésta para participar en la solicitud presentada por la entidad beneficiaria.
8. Cuento con experiencia (no necesariamente como investigador principal) en proyectos financiados por alguno de los Planes Estatales desde 2013, en proyectos del Programa Marco Europeo de I+i, incluidas las ayudas del Consejo Europeo de Investigación u otros programas nacionales o internacionales relevantes tal y como muestran las referencias de proyectos concedidos en los que he participado que se incluyen en el anexo².
9. No soy beneficiario de un ayuda de Proyectos de Colaboración Internacional del año 2024³.
10. Solo presento una propuesta a la presente convocatoria⁴.
11. No he presentado otra propuesta (incluso que no haya sido evaluada) en convocatorias transnacionales (proyectos bilaterales, ERA-NET, partenariados europeos o *partnerships*, u otros programas internacionales como CRCNS de la *National Science Foundation* estadounidense, los grupos de interés EIG-Concert-Japan y EU-CELAC, entre otros), que puedan ser financiadas por las convocatorias de “Proyectos de Colaboración Internacional” de 2025 o 2026 de la AEI.
12. No he presentado otra propuesta a la convocatoria de “Proyectos de Generación de Conocimiento 2024. Proyectos tipo I (PID-I)”⁵.

¹ La expectativa de nombramiento o contratación con motivo de haber superado un procedimiento de selección de personal en concurrencia competitiva convocado por cualquier entidad del sector público, según la definición del artículo 2 de la Ley 40/2015, de 1 de octubre, se considerará vinculación suficiente

² En caso de no tener experiencia en proyectos de los planes estatales y nacionales mencionadas, puede informar de proyectos en los que haya participado para su valoración.

³ No es compatible tener dos ayudas Proyectos de Colaboración Internacional del mismo año o de dos años consecutivos: 2024-2025, 2025-2026, 2026-2027.

⁴ Si un mismo investigador principal presenta dos o más propuestas a la presente convocatoria, todas podrán ser declaradas no elegibles, sin posibilidad de cambio de IP.

⁵ Los otros tipos de proyectos de PID (no encuadrados en I) no tienen ninguna incompatibilidad con PCI.

Anexos:

- Anexo 1. Lista de proyectos más relevantes financiados por los planes nacionales o/y estatales, así como de los programas marco de investigación e innovación de la Unión Europea u otros relevantes en los que he participado.
- Anexo 2. Declaración de la entidad beneficiaria comprometiéndose a mantener la vinculación del investigador principal durante toda la duración del proyecto. *Solo para los investigadores principales que tengan una vinculación con la entidad beneficiaria menor a la duración del proyecto.*

En a de de

Fdo.: (Nombre completo y dos apellidos).

Anexo 1.

Listado de proyectos financiados por planes estatales, así como de los programas marco de investigación e innovación de la Unión Europea u otros relevantes en los que ha participado.

Referencia proyecto	Acrónimo	Título

Anexo 2.

Declaración de la entidad beneficiaria comprometiéndose a mantener la vinculación del investigador principal durante toda la duración de la acción.

Solo para los investigadores principales que tengan una vinculación con la entidad beneficiaria menor a la duración del proyecto.

Necesaria también si la entidad beneficiaria es distinta de la entidad a la que está vinculada la persona que actúa como IP.

SPAIN – CENTRE FOR THE DEVELOPMENT OF TECHNOLOGY AND INNOVATION (CDTI)

Information on the Funding Organisation in the Call

Budget	950.000€
Anticipated number of projects to fund	4–5
Website	Partenariados cofinanciados Pilar 2 CDTI
Contact	Marina Sopeña partenariadoshe@cdti.es (+34) 91 581 56 07 (+34) 91 581 55 00

National/regional requirements and guidelines on proposals

Call Modules and topics	All
Proposal submission	<p>Each Spanish company participating in a project and requesting funding from CDTI, must apply via CDTI’s electronic submission system.</p> <p>CDTI’s application process consists of completing an online application form which is accompanied by a short technical report written in Spanish. The report must focus on the activities (and associated budget) that the company will assume in the project (please check “RDI approaches” and “Types of cost” sections below).</p> <p>Deadline to complete CDTI’s application process: 09/10/2025. Please note that failing to comply with the national application process by the deadline, will deem the company ineligible to participate in the call.</p> <p>Applicants are strongly advised to check the detailed information available on CDTI website and to contact the NCP for advice about national funding rules, before submitting a proposal.</p>
Project Consortium Partners	Companies (large and SME) with tax residence or permanent establishment in Spain.
Project duration	Between 12 and 36 months

Project budget	N.A.		
Funding request	N.A.		
Funding rates (%)	Basic research	Industrial/ applied research	Experimental develop- ment/innovation
Large enterprises		Up to 40%	Up to 40%
Medium enterprises		Up to 50%	Up to 50%
Small enterprises		Up to 60%	Up to 60%
Universities, public re- search organisations			
Public authorities			
Associations without eco- nomic activities, NGOs			
Notes	*If there is national budget available, the grant could be increased to up to 70% for all companies.		
Types of cost	<ul style="list-style-type: none"> • Costs of the personnel performing R&D tasks, including up to 58 hours per month for project management. • Overheads (up to 25% of all direct cost, excluding subcontracting and travel expenses). • Instruments, equipment, materials, supplies and similar products incurred directly as a result of the project (to the extent that they are used and for the duration of the project). • Contractual research, knowledge and patents. • Subcontracting a consultancy firm (up to 8.000€). • Subcontracting costs cannot exceed 50% of the participant eligible costs. • Travel expenses (up to 8.000€). • Audit reports (up to 2.000€ per financial year). <p>Other operating expenses are not eligible for funding.</p> <p>Only the costs incurred during the project duration (since the project start date to the project end date) are eligible for funding.</p>		

<p>RDI approaches and TRLs</p>	<p>Industrial research and/or experimental development activities, in accordance with the definitions of the COMMISSION REGULATION (EU) No 651/2014 of 17 June 2014</p> <p>TRL 4–7</p> <p>The activities and tasks related to communication, dissemination, preparation for entry into the market, commercialisation, industrial-scale trials and registration of industrial property are not eligible for funding.</p>
<p>Other requirements/guidelines</p>	<ul style="list-style-type: none"> • Projects should support transnational collaboration; therefore, no single participant or country can exceed 70% of the total project costs. • The Spanish applicant's activities must be carried out in Spain and represent a high scientific-technical quality and a relevant innovative nature. • It is recommended a minimum budget of 200.000€ • The funding will be implemented in the modality of grants. CDTI's funding is subject to final availability.

National/regional requirements and guidelines on proposals

Call Modules and topics	All call modules and topics of the CETP call are eligible.
Proposal submission	The proposal will have to be submitted on an annual basis to the regional programme called HAZITEK.
Project Consortium Partners	<p>Large, medium and small enterprises are eligible.</p> <p>They must:</p> <ul style="list-style-type: none"> • Have a production facility in the Basque Country from where its economic activity will develop and where it will have its own staff involved in the R&D project. • Develop directly from its facilities in the Basque Country the eligible activities.
Project duration	Maximum duration of 3 years. Grants will be awarded annually.
Project budget	Minimum annual budget per Basque company in the CETP consortium 50.000 €.
Funding request	N/A

Funding rates (%)	Basic research	Industrial/ applied research	Experimental develop- ment/innovation
Large enterprises		Up to 70%	Up to 70%
Medium enterprises		Up to 70%	Up to 70%
Small enterprises		Up to 70%	Up to 70%
Universities, public re- search organisations			
Public authorities			
Associations without eco- nomic activities, NGOs			
Types of cost	<ol style="list-style-type: none"> 1. Personnel expenses in the project (direct and indirect). 2. External advisory services and equivalent expenses. 3. Outsourcing highly specialized parts of the project. 4. Subcontracting expenses to Basque Science, Technology and Innovation Network agents. 5. Operating expenses (such as materials costs, supplies...) incurred directly as a result of the research activity. 6. Intellectual property rights expenses. 7. Amortization expenses for infrastructure and equipment used in the project. 		
RDI approaches and TRLs	<p>The regional funding programme used to support CETP projects (HAZITEK) is a programme that supports activities related to industrial research and development. The programme supports companies in advancing their technological developments to demonstration in an operational environment, typically under industrial conditions and timescales. In other words, through the activities supported by the programme, companies will be able to reach a technological maturity level of TRL 7, but in no case to start their developments close to this starting point.</p> <p>(TRL3–TRL7)</p>

AEI – ANNEX. “Declaración responsable”

NOTA IMPORTANTE

La presente declaración responsable se atenderá a lo establecido en el artículo 69 de la Ley 39/2015, de 1 de octubre, del Procedimiento Administrativo Común de las Administraciones Públicas.

Según el citado precepto, la inexactitud, falsedad u omisión, de carácter esencial, de cualquier dato o información que se incorpore a una declaración responsable o a una comunicación, o la no presentación de la documentación que sea en su caso requerida para acreditar el cumplimiento de lo declarado, determinará la imposibilidad de continuar con el procedimiento dando lugar a la desestimación de la ayuda o en su caso su revocación, sin perjuicio de las responsabilidades penales, civiles o administrativas a que hubiera lugar.

Asimismo, se recuerda que tal y como establece el artículo 58.a) de la Ley 38/2003, de 17 de noviembre, General de Subvenciones, se considerará falta muy grave la obtención de una subvención falseando las condiciones requeridas para su concesión u ocultando las que la hubiesen impedido o limitado.

DECLARACIÓN RESPONSABLE

D/Dña....., NIF:....., con domicilio en....., teléfonos de contacto: en nombre propio y como investigador(a) principal español(a) de la propuesta con título y acrónimo de la convocatoria del año en la que participa la Agencia Estatal de Investigación (AEI) como agencia financiadora española.

DECLARO RESPONSABLEMENTE EN NOMBRE PROPIO Y COMO INVESTIGADOR(A) PRINCIPAL DE LA PROPUESTA QUE:

1. Estoy en posesión del grado de doctor/a, o
2. Pertenezco a un centro contemplado en el *Directorio de centros tecnológicos y centros de apoyo a la innovación tecnológica regulados por el Real Decreto 2093/20228*, estoy en posesión de la titulación universitaria de licenciado/a, ingeniero/a, arquitecto/a o graduado/a, y, además, cumplo con una de las siguientes condiciones:
 - a. Tengo acreditada experiencia en actividades de I+D+i durante al menos cinco años.
 - b. He dirigido proyectos de investigación en el marco de las convocatorias de proyectos de I+D+i del plan estatal de I+D+i 2013-2016 o posteriores
3. Cuento con autorización expresa de la entidad beneficiaria para participar en la solicitud de la propuesta(ACRONIMO).

4. No estoy contratado/a con cargo a los fondos obtenidos en ninguna convocatoria de los planes estatales de I+D+i actual o anteriores, *con excepción* de las correspondientes al Programa Estatal de Promoción del Talento y su Empleabilidad en I+D+i o equivalentes en las que se requiera estar en posesión del grado de doctor/a, o de las ayudas «Severo Ochoa» y «María de Maeztu» de la AEI.
5. Tengo una relación funcionarial, estatutaria, laboral u otro vínculo profesional con la entidad beneficiaria de la ayuda o con otra entidad que cumpla los requisitos de elegibilidad de las ayudas durante toda la duración de la acción¹, o
6. En el caso de que el vínculo profesional con la entidad beneficiaria sea menor a la duración de la acción, aporto una declaración de la entidad beneficiaria comprometiéndose a mantener la vinculación durante toda la duración de la acción.
7. En el caso de que mi vinculación laboral no sea con la entidad beneficiaria sino con otra, cuento con la autorización expresa de ésta para participar en la solicitud presentada por la entidad beneficiaria.
8. Cuento con experiencia (no necesariamente como investigador principal) en proyectos financiados por alguno de los Planes Estatales desde 2013, en proyectos del Programa Marco Europeo de I+i, incluidas las ayudas del Consejo Europeo de Investigación u otros programas nacionales o internacionales relevantes tal y como muestran las referencias de proyectos concedidos en los que he participado que se incluyen en el anexo².
9. No soy beneficiario de un ayuda de Proyectos de Colaboración Internacional del año 2024³.
10. Solo presento una propuesta a la presente convocatoria⁴.
11. No he presentado otra propuesta (incluso que no haya sido evaluada) en convocatorias transnacionales (proyectos bilaterales, ERA-NET, partenariados europeos o *partnerships*, u otros programas internacionales como CRCNS de la *National Science Foundation* estadounidense, los grupos de interés EIG-Concert-Japan y EU-CELAC, entre otros), que puedan ser financiadas por las convocatorias de “Proyectos de Colaboración Internacional” de 2025 o 2026 de la AEI.
12. No he presentado otra propuesta a la convocatoria de “Proyectos de Generación de Conocimiento 2024. Proyectos tipo I (PID-I)”⁵.

¹ La expectativa de nombramiento o contratación con motivo de haber superado un procedimiento de selección de personal en concurrencia competitiva convocado por cualquier entidad del sector público, según la definición del artículo 2 de la Ley 40/2015, de 1 de octubre, se considerará vinculación suficiente

² En caso de no tener experiencia en proyectos de los planes estatales y nacionales mencionadas, puede informar de proyectos en los que haya participado para su valoración.

³ No es compatible tener dos ayudas Proyectos de Colaboración Internacional del mismo año o de dos años consecutivos: 2024-2025, 2025-2026, 2026-2027.

⁴ Si un mismo investigador principal presenta dos o más propuestas a la presente convocatoria, todas podrán ser declaradas no elegibles, sin posibilidad de cambio de IP.

⁵ Los otros tipos de proyectos de PID (no encuadrados en I) no tienen ninguna incompatibilidad con PCI.

Types of cost	<ul style="list-style-type: none"> • Staff costs • Equipment (depreciation) • Fungible assets and supplies • Subcontracting: Technical assistance and contractual research • Travel expenses, associated to the project and staff assigned to the project • Indirect costs (up to 25% of staff costs) 		
RDI approaches and TRLs	<p>Projects must have TRL above 3 and under 7.</p> <p>Projects for which funding is requested must be of such a nature that they can be considered in their entirety as industrial research or experimental development projects. In this context, a project shall be considered industrial research if its Technology Readiness Level (TRL) at the beginning of the project is TRL 3: Analytical and experimental critical function and/or proof of concept, TRL 4: Component and/or system validation in a laboratory environment, or TRL 5: Component and/or system validation in a relevant environment. Meanwhile, experimental development projects shall be those with a TRL of 6: System or subsystem model or prototype demonstration in a relevant environment, or TRL 7: System or prototype demonstration in a real environment.</p> <p>a) Industrial research: This refers to planned research or critical studies aimed at acquiring new knowledge and skills that may be useful for developing new products, processes, or services, or for significantly improving existing ones. It includes the creation of components of complex systems and may involve the construction of prototypes in a laboratory setting or in</p>		

<p>RDI approaches and TRLs (cont.)</p>	<p>an environment with simulated interfaces with existing systems, as well as pilot lines, when necessary for industrial research and, in particular, for the validation of generic technology.</p> <p>b) Experimental development: This consists of acquiring, combining, configuring, and using existing knowledge and techniques of a scientific, technological, business, or other nature with a view to developing new or improved products, processes, or services. It may include the creation of prototypes, demonstration, pilot projects, testing, and validation of new or improved products, processes, or services in environments representative of real operating conditions, provided the primary objective is to bring about new technical improvements to products, processes, or services that are not yet substantially established. It may also include the development of prototypes or pilot projects that can be commercially applied when the final commercial product is used and its production would be too costly for demonstration and validation purposes only.</p> <p>Experimental development does not include routine or periodic modifications to existing products, production lines, manufacturing processes, services, and other ongoing operations, even if such modifications may represent improvements.</p>
<p>Other requirements/guidelines</p>	<p>Important and mandatory acknowledgement: Any publication or dissemination activity resulting from the granted projects must acknowledge funding by SODERCAN (please refer to the regional regulatory bases).</p> <p>Financial reporting: The grant beneficiary must justify to SODERCAN the full completion of the subsidised project and compliance with the conditions to which the grant was subject, within a period of <u>two months from the end of the execution of each annual phase</u> of the project.</p>

SWEDEN– SWEDISH ENERGY AGENCY (SWEA)

Last updated 10.06.2025

Information on the Funding Organisation in the Call

Budget	10 MEUR available funding for Swedish partners
Anticipated number of projects to fund	10–15 projects
Website	Utlysningar och stöd (energimyndigheten.se) Så söker du stöd och redovisar (energimyndigheten.se). Manual för forskningsansökningar via Mina sidor.
Contact	CETPartnership@energimyndigheten.se +46 (0)16 544 20 00

National/regional requirements and guidelines on proposals

Call Modules and topics	All
Proposal submission	<p>Only consortia selected for funding after final evaluation of full proposal will be invited to write a full proposal at the national level.</p> <p>Following the full proposal stage of the international Expert Panel evaluation, the Swedish Principal Investigators in the projects recommended for funding will be invited to submit a national application to SWEA (via mina sidor).</p> <p>Information about the submission will be provided in the invitation and by the contact person.</p>
Project Consortium Partners	<p>All actors operating in Sweden are eligible for funding.</p> <p>Some examples include universities, research institutes, SME's and large companies, public authorities, NGOs, civil sector.</p> <p>Specifications: The applicant must be a Swedish legal entity.</p> <p>Decisions on funding research, development, and innovation in the energy area are taken according to the ordinance:</p> <p>Forskning och innovation på energiområdet för försörjningstrygghet, konkurrenskraft och klimatomställning (Proposition 2024/25:72) and</p>

Project Consortium Partners (cont.)	<p>Förordning (2008:761) om stöd till forskning och utveckling samt innovation inom energiområdet</p> <p>Decisions on funding research, development, and innovation in the industrial leap programme taken according to the ordinance SFS 2017:1319 in the Swedish Code of Statues.</p> <p>Swedish sub-consortia need to include at least one non-research organization established and operating in Sweden. See above under Eligible types of organisations.</p> <p>Please note that the Swedish Energy Agency will examine the ability of the applicant organisation and individual to carry out the proposed activities in the project proposed with regards to available time and commitment considering their participation in applications and on-going projects funded by the Swedish Energy Agency.</p>		
Project duration	<p>See 3.3 Project duration and budget in the Call text.</p>		
Project budget			
Funding request	<p>N/A</p>		
Funding rates (%)	Basic research	Industrial research	Experimental development
Large enterprises	n.a	50 %	25 %
Medium enterprises	n.a	60 %	35 %
Small enterprises	n.a	70 %	45 %
Universities, public research organisations	n.a	100 %	100 %
Public authorities	n.a	100 %	100 %
Associations without economic activities, NGOs	n.a	100 %	100 %
Types of cost (to be updated at Call opening on 11 June)	<p>Personnel costs, travel costs, consultancy, material costs, laboratory costs, equipment costs, patent, indirect costs.</p> <p>For more information regarding eligible costs and SWEA's legislation see the Swedish national information on the call information on CETPartnership Call information at the Swedish Energy Agency web site.</p>		

CETPartnership Joint Call 2025

RDI approaches and TRLs	Industrial research and experimental development can be supported if overall project scope is relevant to the call text.
Other requirements/guidelines	Submission of financial and progress reports at the national level: Following the national project decision: the funded projects will be required to submit one financial and one progress report annually to SWEA (via mina.sidor).

SWITZERLAND – SWISS NATIONAL SCIENCE FOUNDATION (SNSF)

Last updated 06.05.2025

Information on the Funding Organisation in the Call

Budget	850'000 €
Anticipated number of projects to fund	2–3
Website	https://www.snf.ch/en
Contact	Cédric Leroux, cetp@snf.ch

National/regional requirements and guidelines on proposals

Call Modules and topics	CM2025-02, CM2025-03A, CM2025-06, CM2025-07 and CM2025-09
Proposal submission	<p>Mandatory, parallel submission of pre- and full- proposal via mySNF</p> <p>Swiss-based partners must submit pre-proposals and full proposals via mySNF at the same submission deadline of the consortium application on the CETPartnership’s Submission Platform. These submissions are mandatory and do not replace the submission of the consortium application.</p> <p>Pre-proposal forms are created by selecting "Projects: Partnership: CETP: Pre-proposal".</p> <p>Full-proposal forms are created by selecting "Projects: Partnership: CETP: Full proposal" and are to be linked to the pre-proposal by selecting its number in the data container "Relation to pre-proposal".</p> <p>In case of multiple, Swiss-based partners participating in the same consortium, only one application is to be submitted on mySNF, whereby one Swiss-based partner must act as "corresponding applicant" and the other Swiss-based partners are to be listed as "other applicants".</p> <p>When submitting via mySNF, partners who are not applying for funding from the SNSF are to be declared as “consortium partners”, but not as “project partners” in the sense of article 11.2 of the SNSF Funding Regulations.</p>
Project Consortium Partners	A Project Consortium must include Project Consortium Partners who comply with the requirements for applicants in the SNSF Funding Regulations .

Project duration	The grants are awarded for a minimum of one year and a maximum of four years.		
Project budget	The SNSF provides a minimum grant of 100 000 Swiss francs per project . The SNSF provides a maximum of 250,000 Swiss francs annually per applicant of a project and a maximum of 1 million francs annually for the project.		
Funding request			
Funding rates (%)	Basic research	Industrial/ applied research	Experimental develop- ment/innovation
Large enterprises	0 %	0 %	0 %
Medium enterprises	0 %	0 %	0 %
Small enterprises	0 %	0 %	0 %
Universities, public re- search organisations	100 %	100 % for applied re- search; 0 % for indus- trial research	0 %
Public authorities	0 %	0 %	0 %
Associations without eco- nomic activities, NGOs	0 %	0 %	0 %
Types of cost	<p>Eligible costs are outlined in the SNSF Funding Regulations (Art. 28) and the SNSF General Implementation Regulations (Section 2).</p> <p>Project overhead costs cannot be applied for. They are calculated based on the research funding acquired by eligible institutions under eligible funding schemes. Overhead contributions are paid in retrospect at a flat rate to the institutions of the SNSF awardees.</p>		
RDI approaches and TRLs	<p>TRL: 1 to maximum 4.</p> <p>The SNSF exclusively funds basic research conducted for purposes that are not directly commercial. Pursuant to the Research and Innovation Promotion Act (RIPA) and the legal framework of the SNSF, no research grants are awarded if the relevant research is conducted for directly commercial purposes or if the persons involved in the research work are not scientifically independent. Thus, the SNSF can fund basic research and applied research without commercial goals only.</p>		

<p>Other requirements/guidelines</p>	<p>Participation restricted to one project</p> <p>Participation of Swiss-based partners requesting financial support from the SNSF is restricted to one project (Art.7.3, SNSF Regulations on project funding). They may, however, participate in other consortia projects as Self-financed Partners.</p> <p>Proposals with overlapping funding periods with ongoing SNSF projects</p> <p>Proposals with overlapping funding periods with ongoing SNSF projects are only approved if the research projects pursue different goals (Article 17 of the SNSF Funding Regulations).</p> <p>Maximum number of grants</p> <p>The maximum number of grants in the project funding scheme for the same funding period from the SNSF is limited to three grants, provided at least one grant is for an EU consortium project or has been granted on the basis of a lead agency, Weave or International Co-investigator scheme evaluation. Swiss-based investigators who already hold three SNSF grants in project funding cannot request financial support from the SNSF to participate in this call (Article 13 of the Amended Project Funding Regulations). The list of projects counting toward the maximal number of projects allowed can be found here.</p> <p>Data management plan</p> <p>Swiss-based partners will have to complete the DMP on <i>mySNF</i> once the project is approved, regardless of whether a DMP is requested by the CETPartnership. The DMP must cover the research data, which are collected, observed, generated or reused in the Swiss part of the project and must comply with the SNSF Open Research Data Policy.</p> <p>Consortium agreement</p> <p>Before the release of the funds, the SNSF requests the submission of a copy of the consortium agreement signed by all the Project Consortium Partners.</p> <p>Grant management</p> <p>Grants will be managed according to standard SNSF rules described in SNSF Funding Regulations. Yearly financial reports for the use of SNSF funds must be submitted via <i>mySNF</i>. As a final scientific report, the SNSF requests the submission of the final scientific report submitted to the CETPartnership. No other scientific report is requested.</p>

UK/SCOTLAND – Scottish Enterprise (SE)

Last updated 24.06.25

Information on the Funding Organisation in the Call

Budget	€3.5m for eligible organisations in the Scottish Enterprise (SE) and South of Scotland Enterprise Regions (SoSE). For further details refer to section Project budget
Anticipated number of projects to fund	6–8 projects
Website	https://www.scottish-enterprise.com/support-for-businesses/funding-and-grants/business-grants-and-funding-calls/clean-energy-transition-partnership-programme-cetp
Contact	Scottish Enterprise: Richard.buxbaum@scotent.co.uk ; SEGEC@scotent.co.uk South of Scotland: NetZero@sose.scot .

National/regional requirements and guidelines on proposals

Call Modules and topics	We will consider applications under all Call Modules. However, as part of our eligibility process, projects will be expected to demonstrate relevance to Scottish Government energy strategies and expected contribution to economic development in Scotland. Please speak to Scottish Enterprise contact when developing a proposal to discuss the project scope.
Proposal submission	At the full proposal stage Scottish applicants will need to submit a separate Research and Innovation Application proposal (including supporting documentation) to Scottish Enterprise. This will be reviewed for eligibility if the CETP proposal is recommended for funding.
Project Consortium Partners	Companies that are legal entities and that have their own operating presence in the SE or SoSE areas of Scotland, or that wish to establish their own operating presence in these areas of Scotland, to carry out research and development activities. This includes subsidiaries of overseas companies. Universities or other organisations recognised as research organisations (ROs) that are legal entities registered and operating in SE or SoSE areas of Scotland, subject to the following conditions:

	<p>ROs will only be eligible if there are at least two companies involved in the collaborative project, one of which must be located in the SE or SoSE areas of Scotland and be eligible for and requesting SE funding.</p> <p>The work being carried out by the research organisation should be of direct relevance to at least one of the participating Scottish companies.</p> <p>The total budget of the research organisation should be no greater than the combined total budgets of the Scottish companies involved in the collaborative project and seeking funding from SE.</p> <p>For other eligibility conditions please refer to section 'Other requirements/guidelines'.</p>		
Project duration	Up to a maximum of 36 Months		
Project budget	<p>Please contact Scottish Enterprise for guidance.</p> <p>The total available budget for organisations located in Scottish Enterprise region is €3.3m.</p> <p>The total available budget for organisations located in SoSE is €296k.</p>		
Funding request			
Funding rates (%)	Basic research	Industrial/ applied research	Experimental develop- ment/innovation
Large enterprises	Up to 40%	Up to 40%	Up to 40%
Medium enterprises	Up to 50%	Up to 50%	Up to 50%
Small enterprises	Up to 50%	Up to 50%	Up to 50%
Universities, public re- search organisations	Up to 100% (equivalent to 80% Full Economic Costs)	Up to 100% (equivalent to 80% Full Economic Costs)	Up to 100% (equivalent to 80% Full Economic Costs)
Public authorities	n/a	n/a	n/a
Associations without economic activities, NGOs	n/a	n/a	n/a
Notes	Public authorities and Associations without economic activities, NGOs are not eligible for funding. Organisations located in the HIE region are not eligible to receive financial support in 2025 but can participate as self-funded partner.		

<p>Types of cost</p>	<p>Project-specific costs including salaries, overheads, equipment, subcontracting, consultancy, training, materials, trials, IP management (SMEs only), travel and subsistence, and audit certificates for financial claims (SMEs only). Detailed guidance available on request.</p>
<p>RDI approaches and TRLs</p>	<p>No specific rules on TRLs; please refer to CETP call modules. Projects should include the development of new products, processes or services for Scottish companies.</p> <p>The project / activity must be strategically important to the Scottish company(ies) and in line with its business plan.</p> <p>The project must involve research and development activity in Scotland. However, testing in a demonstration site outside Scotland is also eligible.</p> <p>Projects must have the potential to deliver benefits to Scotland’s economy and the new product, process or service must, in the case of non-SMEs, be able to compete in a global marketplace.</p> <p>Proposals must demonstrate how the project will be implemented to ensure capability building and sustainability in Scotland to enhance the companies’ future competitiveness and research and development capacity.</p> <p>For large companies seeking support, the project must demonstrate the incentive effect of the grant (i.e. how the applicant’s level of R&D expenditure or R&D jobs will be increased as a result of support).</p>
<p>Other requirements/guidelines</p>	<p>The project cannot start or have spending committed to it in the form of commercial contracts before you have received an offer of grant, should your application to Scottish Enterprise be successful.</p> <p>As part of their Fair Work Action Plan, the Scottish Government has set out the goal to make Scotland a Fair Work Nation by 2025. To help achieve this goal, applicants for Scottish Enterprise grant support will be assessed against the Scottish Government’s seven Fair Work First Criteria. To secure a R&D grant, you must be able to demonstrate that your business has met the Fair Work First Criteria. If you are unable to commit to the criteria, we may not be able to offer you an award at this time. We are committed to encouraging applicants from all backgrounds and sectors. We will treat all applications equally. You should only apply when you are able to meet these obligations.</p>
