UNITED STATES OF AMERICA – Department of Energy Office of Fossil Energy and Carbon Management (DOE FECM) .	141

DRAFT

## AUSTRIA – Austrian Research Promotion Agency (FFG)

### a) National/Regional information and eligibility criteria

Contact Point	<p>Paul Kuttner  <a href="mailto:paul.kuttner@ffg.at">paul.kuttner@ffg.at</a>                  +43 5 7755 5069</p> <p>Sandra Braumann  <a href="mailto:Sandra.braumann@ffg.at">Sandra.braumann@ffg.at</a>                  +43 5 7755 5058</p> <p>For Call Module 5:                  Johannes Fritzer  <a href="mailto:johannes.fritzer@ffg.at">johannes.fritzer@ffg.at</a>                  +43 5 7755 5032</p>
Funding commitment	<p>Call Module 1, 8 and 10 (A/B): 1.2 Mio. €</p> <p>Call Module 5: 1.5 Mio. €</p> <p>Call Module 9: 2 Mio. €</p> <p>Call Modules 1, 5 8 &amp; 10 (A/B) financed by the Federal Ministry for Climate Action, Environment, Energy, Mobility, Innovation and Technology (BMK)</p> <p>Call Module 9 financed by the Climate &amp; Energy Fund</p>
Anticipated number of projects to be funded	n.a.
Maximum funding per awarded project/per partner	Maximum funding per project 2 Mio. €
Eligible types of organisations	<p>In general, universities, research institutes, SME's and large companies, cities, municipalities and NGOs (legal entities) are eligible for funding. The complete eligibility criteria and definitions may be found in the <a href="#">national guidelines</a></p>
Eligible Call Modules	Call Modules 1, 5, 8, 9 & 10 (A/B)

Eligible types of RDI and TRL	Industrial research & experimental development TRL 2 – 7
Submission of proposal /documentation at national/regional level	National application via <a href="#">eCall</a> is mandatory: Submission deadline pre-proposals: 24 November 2023 at 12.00 (CET) Submission deadline full proposals: 29 March, 2024 at 12.00 (CET)
Additional eligibility criteria	At least one enterprise that receives funding is mandatory as a partner in any transnational consortium involving Austrian partners. It is not mandatory for this enterprise to be located in Austria.  All Austrian partners in one project must select the same research type.  For Call Module 5 Applications: Thematic restriction for Austrian participants to green hydrogen (as a fuel, produced by electrolysis or based on biogenic raw materials) or fuels produced by the use of green hydrogen as a reactant (e.g. Power-Liquid, Power-to-Gas, Power-to-Ammonia ...).  The contribution of Austrian participants in submitted proposals should be focused on the development and use of hydrogen and fuel cells in mobile applications. According to the goals of Austria's National Hydrogen Strategy the proposals must concentrate on applications in the transport sector, where electrification is difficult to achieve (aviation, heavy-duty road and rail transport, shipping).
Eligible costs	Personnel costs, Overhead costs (flat rate), Use of R&D infrastructure, Costs of materials, Third-party costs, Travel costs  For detailed information see the " <a href="#">Kostenleitfaden</a> "  Costs must be allocated directly to the project, incurred during the funding period in addition to normal operating expenses, correspond to the funding contract and can be proven
Information available at	<a href="#">the CETP Call 2023 national website</a>
Other	Applicants are strongly encouraged to contact FFG before submitting a preproposal.  In parallel to the submission of the joint proposal by the coordinator, a simplified national application is to be submitted via the FFG electronic submission system <a href="#">eCall</a> by participants requesting funding by FFG (both in the preproposal and in the full proposal stage).  For projects awarded funding scientific and financial reporting via <a href="#">eCall</a> on an annual basis is mandatory.

## b) Maximum Funding rates

	Basic research	Industrial/Applied Research	Experimental development/innovation
Large Enterprises	n.a.	55%	35%
Medium Enterprises	n.a.	70%	50%
Small Enterprises	n.a.	80%	60%
Universities, public research organisations	n.a.	85%	60%
Public authorities	n.a.	80%	60%
Associations without economic activities, NGOs	n.a.	80%	60%

DRAFT

## BELGIUM-FLANDERS – FONDS INNOVATIE EN ONDERNEMEN (FIO/VLAIO)

### a) National/Regional information and eligibility criteria

<b>Contact Point</b>	<b>Frank Verschraegen</b> , <a href="mailto:frank.verschraegen@vlaio.be">frank.verschraegen@vlaio.be</a> , +32 471 55 98 19
<b>Funding commitment</b>	1.000.000 euro, excluding EC topup
<b>Anticipated number of projects to be funded</b>	2-3
<b>Maximum funding per awarded project/per partner</b>	500.000 euro per awarded project
<b>Eligible types of organisations</b>	VLAIO is involving the Programmes for Development projects and Research projects. Therefore the involvement of at least one private company (SME or large company) based in Flanders is mandatory (with the possibility to cooperate with research organisations).
<b>Eligible Call Modules</b>	All Modules.
<b>Eligible types of RDI and TRL</b>	Research projects and Development projects, up to TRL 7.
<b>Submission of proposal /documentation at national/regional level</b>	<p>An annex is to be submitted together with the international project proposal to Flanders Innovation and Entrepreneurship.</p> <p>The annex(es) must be read together with the international project proposal. For this reason the focus of this annex should <u>only</u> be on the role of the (Flemish) company in the project, the nature of the activities to be carried out by the Flemish partners and the impact of the project results for the company in particular.</p>
<b>Additional eligibility criteria</b>	<p>Applicants should motivate how the realization of the project will create added value for the company in Flanders.</p> <p>Subsidies range from: 35-60% for development projects 60-70% for research projects</p>

<p><b>Eligible costs</b></p>	<p>Personnel costs and related direct and indirect costs according to VLAIO rules.</p>
<p><b>Information available at</b></p>	<p><a href="#">Application process for research project grant   Agentschap Innoveren en Ondernemen (vlaio.be)</a></p> <p>The template annex for international and interregional projects can be found under the documents section. The template budget application can also be found here.</p> <p><a href="#">Subsidies voor O&amp;O&amp;I in een internationaal consortium   Agentschap Innoveren en Ondernemen (vlaio.be)</a></p>
<p><b>Other</b></p>	<p><b>It is advised to contact VLAIO before submission (see contact point above), in order to avoid ineligible projects and consortia.</b></p>

## b) Funding rates

Maximum funding percentages (in case the Flemish company cooperates with 1 or more Flemish research organisations):

	Basic research	Industrial/Applied Research	Experimental development/innovation
<b>Large Enterprises</b>	N/A	65%	40%
<b>Medium Enterprises</b>	N/A	70%	50%
<b>Small Enterprises</b>	N/A	70%	60%
<b>Universities, public research organisations</b>	N/A	As research partner of the enterprise, same funding rates as above.	As research partner of the enterprise, same funding rates as above.
<b>Public authorities</b>	N/A	Not funded	Not funded
<b>Associations without economic activities, NGOs</b>	N/A	Not funded	Not funded

Maximum funding percentages (in case the Flemish company does not cooperate with 1 or more Flemish research organisations):

	Basic research	Industrial/Applied Research	Experimental development/innovation
<b>Large Enterprises</b>	N/A	60%	35%
<b>Medium Enterprises</b>	N/A	60%	45%
<b>Small Enterprises</b>	N/A	60%	50%
<b>Universities, public research organisations</b>	N/A	As research partner of the enterprise, same funding rates as above.	As research partner of the enterprise, same funding rates as above.
<b>Public authorities</b>	N/A	Not funded	Not funded
<b>Associations without economic activities, NGOs</b>	N/A	Not funded	Not funded

## BELGIUM-WALLONIA – Service Public de Wallonie (SPW)

### a) National/Regional information and eligibility criteria

<b>Contact Point</b>	Suleau Marie <a href="mailto:marie.suleau@spw.walonie.be">marie.suleau@spw.walonie.be</a> Gilles Tihon <a href="mailto:gilles.tihon@spw.wallonie.be">gilles.tihon@spw.wallonie.be</a>
<b>Funding commitment</b>	1 500 000
<b>Anticipated number of projects to be funded</b>	/
<b>Maximum funding per awarded project/per partner</b>	/
<b>Eligible types of organisations</b>	Participation of a private company is mandatory (minimum 40% of total Walloon budget). According to the rules of SPW. - Industrial Researches (TRL 3 to 5) : Universities, Research Centers, SME, large companies, settled in Wallonia - Experimental Development (TRL 6 to 7 (8)) : only SMEs and large companies settled in Wallonia
<b>Eligible Call Modules</b>	All TRI 1 to 7
<b>Eligible types of RDI and TRL</b>	RI & RIA All TRL, regarding the conditions on TRL per call module
<b>Submission of proposal /documentation at national/regional level</b>	The pre-proposal has also to be submitted on our own <a href="#">portal</a> by our “regional partner”. The pre-proposal can be in English. If selected for presenting a proposal, this proposal must be in French AND English

<b>Additional eligibility criteria</b>	<ul style="list-style-type: none"> <li>-The partners in Wallonia MUST give a pdf file from their 2021 balance published on Banque Nationale de Belgique</li> <li>- The project cannot receive double funding; a specific form has to be filled in;</li> <li>- The budget for the Walloon partners should follow the SPW-EER (DGO6) cost model;</li> <li>- The funding rate will be the maximum allowed by the decree of the 3rd of July 2008, modified;</li> <li>- The beneficiary must have a stable financial situation; A financial viability check has to be carried out before being recommended for full proposal.</li> <li>- The beneficiary must have Operational offices in the Walloon Region;</li> <li>- The project must add benefit to the regional economy;</li> <li>- All information needed for evaluation should be available;</li> </ul>
<b>Eligible costs</b>	Available : <a href="https://recherche.wallonie.be/guide-depenses-eligibles">https://recherche.wallonie.be/guide-depenses-eligibles</a>
<b>Information available at</b>	Will be published on <a href="https://recherche.wallonie.be/home.html">https://recherche.wallonie.be/home.html</a> and <a href="https://energie.wallonie.be/fr/index.html?IDC=6018">https://energie.wallonie.be/fr/index.html?IDC=6018</a>
<b>Other</b>	

## b) Funding rates

Maximum funding percentages:

	Basic research	Industrial/Applied Research	Experimental development/innovation
<b>Large Enterprises</b>	65%	65%	40%
<b>Medium Enterprises</b>	75%	75%	50%
<b>Small Enterprises</b>	80%	80%	60%
<b>Universities, HE</b>	100%	100%	100%
<b>Research Centers</b>	75%	75%	75%

 All the conditions are available on : <https://recherche.wallonie.be/home/nos-aides-1/minscrire-dans-une-demarche-internationale-international.html>

## CANADA-ALBERTA – Emissions Reduction Alberta (ERA)

### a) National/Regional information and eligibility criteria

<b>Contact Point</b>	<p>Sanah Dar (Manager – Main Contact) TEL: +1 780-429-9327 Email: <a href="mailto:sdar@eralberta.ca">sdar@eralberta.ca</a></p> <p>Christophe Owtrim (Executive Director, Technology and Innovation) TEL: +1 780-423-7762 Email: <a href="mailto:cowtrim@eralberta.ca">cowtrim@eralberta.ca</a></p>
<b>Funding commitment</b>	<p>Total ERA funding envelope is <b>\$3 million CAD</b> (~€2 million at current exchange rate, tbc). The indicative budget for the following areas is: \$1 million CAD is allocated to CCUS, \$1 million CAD is allocated to Renewable Fuels, and \$1 million CAD is allocated to Hydrogen.</p> <p>ERA in its sole discretion reserves the right to modify the total funding available under this Call.</p>
<b>Anticipated number of projects to be funded</b>	<p>Approximately 5-7 anticipated. No minimum or maximum specified.</p>
<b>Maximum funding per awarded project/per partner</b>	<p><b>\$1 million CAD</b> (~€0.66 million at current exchange rate) per project. ERA in its sole discretion reserves the right to modify the maximum funding awarded per project.</p>
<b>Eligible types of organisations</b>	<p>ERA funding is open to all categories of applicant, including technology developers, industry, industrial associations, small and medium-sized enterprises (SMEs), research and development (R&amp;D) organizations, universities, municipalities, not-for-profit organizations, government research labs, and individuals.</p>
<b>Eligible Call Modules</b>	<p>All focus areas mentioned in the CETP-TRI3 Joint Call 2023 guidelines are eligible for Alberta/Canada. However, the following areas for CCUS &amp; Hydrogen are <b>NOT</b> eligible for Canada/Alberta region:</p> <ul style="list-style-type: none"> <li>• Acid gas injection</li> <li>• Offshore storage</li> <li>• Projects whose primary focus is point-to-point transportation or sequestration elements.</li> </ul> <p>For all focus areas, ERA funding will NOT be provided to projects whose primary focus is commercially proven technologies/processes, activities assessed to be business-as-usual, or to address only financial barriers.</p>
<b>Eligible types of RDI and TRL</b>	<p>ERA funding is targeted for projects at the technology scale-up, field pilot, commercial demonstration, or commercial implementation stages (TRL 5-9).</p>

<p><b>Submission of proposal /documentation at national/regional level</b></p>	<p>In addition to the CETP-TRI3 proposal, ERA may require applicants, during the <u>full proposal stage</u> ONLY, to provide supplemental information to support due diligence and portfolio reporting. This information may include detailed budget information, financial report(s), an extended Greenhouse Gas benefits analysis, and/or additional information on the specific alignment with the Alberta market. Supplemental information relates to both the overall project and the component of the project based in Alberta. The final document for the Supplemental Information must be no more than 20 pages in length excluding appendices. Financial reporting will be required for the Alberta-based partner(s) on the project and is mandatory for the project partner that will receive funding from ERA. The <b>Supplemental Information document, budget sheet and appendices must be submitted via email to ERA Applications at <a href="mailto:applications@eralberta.ca">applications@eralberta.ca</a>.</b></p>
<p><b>Additional eligibility criteria</b></p>	<p>Applicants are NOT required to be located in Alberta, but all applicants must demonstrate a clear value proposition for the province. Applicants must demonstrate how the proposed technology or application thereof is an innovative solution for emissions reduction in Alberta.</p>
<p><b>Eligible costs</b></p>	<p>ERA will match applicant contributions toward eligible expenses on a one-to-one (1:1) basis. The maximum ERA contribution to a single project will be no more than <b>50%</b> of the project’s eligible expenses.</p> <p>ERA will not match other government funds provided directly for the proposed project (federal, provincial, or international), or future revenue associated with the outcomes of the project such as offset credits or emissions performance credits associated with the project, tax incentives associated with the project (e.g., Canadian SR&amp;ED credits), revenue from sales of the project’s end-products (e.g., from offtake agreement), or non-eligible contributions. Applicants must justify the amount of funding requested.</p> <p>For information about eligible expenses and costs, please refer to the <i>ERA Eligible Expenses and Cost Instructions</i> document available at <a href="https://erims.outcome-plus.com/Content/Files/ERIMS/Files/ERA%20Eligible%20Expenses%20and%20Cost%20Instructions_November%202021.pdf">https://erims.outcome-plus.com/Content/Files/ERIMS/Files/ERA%20Eligible%20Expenses%20and%20Cost%20Instructions_November%202021.pdf</a>.</p>
<p><b>Information available at</b></p>	<p><a href="https://eralberta.ca">https://eralberta.ca</a></p>

<p>Other</p>	<p>Alberta is home to the Alberta Carbon Conversion Technology Centre (ACCTC), a real-world test bed for carbon capture and conversion technologies. Applicants are strongly encouraged to consider piloting or testing their technology at the ACCTC. See <a href="https://innotechalberta.ca/research-facilities/alberta-carbon-conversion-technology-centre-acctc/">https://innotechalberta.ca/research-facilities/alberta-carbon-conversion-technology-centre-acctc/</a> for more information.</p> <p>Hydrogen Centre of Excellence (HCOE) is led by Alberta Innovates, with the applied research and engineering expertise of InnoTech Alberta and C-FER Technologies. The HCOE is a funding program, testing and service facility, and forum for facilitating partnerships to de-risk hydrogen technology development. Applicants may reach out to the HCOE for assistance with developing partnerships in the hydrogen community. See <a href="https://albertainnovates.ca/programs/hydrogen-centre-of-excellence/">https://albertainnovates.ca/programs/hydrogen-centre-of-excellence/</a> for more information.</p> <p>InnoTech Alberta has a set of services for hydrogen production, infrastructure, and end-use applications. Applicants are encouraged to consider the expertise or facilities needed for testing hydrogen technologies at InnoTech Alberta. See <a href="https://innotechalberta.ca/services/hydrogen/">https://innotechalberta.ca/services/hydrogen/</a> for more information.</p> <p>C-FER Technologies has a collection of services for hydrogen &amp; CO<sub>2</sub> pipeline integrity, hydrogen &amp; CO<sub>2</sub> underground storage, and ensuring hydrogen &amp; CO<sub>2</sub> can be transported and used safely. Applicants are encouraged to consider the expertise or facilities needed for testing hydrogen and CO<sub>2</sub> technologies at C-FER Technologies. See <a href="https://www.cfertech.com/hydrogen/">https://www.cfertech.com/hydrogen/</a> for more information.</p> <p>The International CCS Knowledge Centre (Knowledge Centre) offers insight into practical CCS deployment considerations. It is dedicated to advancing the understanding and use of a large-scale CCS/CCU as a means of managing GHG (greenhouse gas) emissions. Applicants may engage with the Knowledge Centre for assistance with proposal development or project delivery at their own expense. See <a href="https://ccsknowledge.com">https://ccsknowledge.com</a> for more information.</p>

## b) Funding rates

Maximum funding percentages:

The aid intensity for each Czech applicant in the project is determined based on the type of entity according to the [Regulation](#) and at the same time must not exceed the maximum permissible aid intensity for the Czech part of the project, which is 80 % of the total eligible costs.

	Basic research	Industrial/Applied Research	Experimental development/innovation
<b>Large Enterprises</b>	X	50-65* %	25-40* %
<b>Medium Enterprises</b>	X	60-75* %	35-50* %
<b>Small Enterprises</b>	X	70-80* %	45-60* %
<b>Universities, public research organisations**</b>	X	up to 100 %***	up to 100 %***
<b>Public authorities</b>	X	same as enterprises	same as enterprises
<b>Associations without economic activities, NGOs</b>	X	50-80 %	25-60 %

\* If the "bonus for effective collaboration" is achieved

\*\*Research organisations must satisfy the definition in the Act and the Framework

\*\*\*While respecting the maximum permissible aid intensity of 85 % per project

## DENMARK – Energy Technology Development and Demonstration Programme (EUDP)

### a) National/Regional information and eligibility criteria

<b>Contact Point</b>	Wickie Lassen Agdal <a href="mailto:wbl@ens.dk">wbl@ens.dk</a> +45 33 92 92 73
<b>Funding commitment</b>	1.340.000 EUR
<b>Anticipated number of projects to be funded</b>	N/A
<b>Maximum funding per awarded project/per partner</b>	1.340.000 EUR
<b>Eligible types of organisations</b>	Public and private business enterprises, as well as knowledge institutions, are eligible for aid. However, it is required that at least one Danish private business enterprise participates as an active partner.  - <i>An active partner should have a significant expected contribution to generate growth and/or employment in a Danish context, and/or contribute to the Danish climate policy objectives (e.g. CO<sub>2</sub>-reductions and independence from fossil fuels).</i>
<b>Eligible Call Modules</b>	All  NB: The applicant should choose “Innovation Fund Denmark” for more research-focused projects and “EUDP” for more development-focused projects. Please contact the relevant national contact point for guidance as early in the application process as possible.
<b>Eligible types of RDI and TRL</b>	EUDP supports projects focused on development and demonstration of new energy technology <b>(TRL 4-8)</b> .  EUDP can also support projects that includes a <i>smaller</i> research element if it prepares or directly support the development and demonstration in the same project.
<b>Submission of proposal /documentation at national/regional level</b>	EUDP require <b>submission of specific appendices for national eligibility check</b> . The appendices and more information are available at: <a href="https://eudp.dk/soeg-tilskud">https://eudp.dk/soeg-tilskud</a> .

<b>Additional eligibility criteria</b>	EUDP Assessment Criteria for National Applications under CETPartnership can be found in the EUDP document package from <a href="https://eudp.dk/soeg-tilskud">https://eudp.dk/soeg-tilskud</a> .
<b>Eligible costs</b>	<ul style="list-style-type: none"> <li>• Personnel costs.</li> <li>• Instruments and equipment.</li> <li>• Buildings.</li> <li>• Other operating expenses, including materials.</li> <li>• External/sub-supplies.</li> <li>• Overhead costs.</li> <li>• Other/travelling/dissemination.</li> </ul> <p>Danish applicants must comply with the EUDP rules which can be found in the link below (section 3): <a href="#">Danish version</a> / <a href="#">English version</a></p> <p>It is not possible to receive funding for activities, which aim to:</p> <ul style="list-style-type: none"> <li>• Develop business models, market analyses, direct sales promotion and other commercial market activities, including deploying existing technology or commercial operation of plant and similar.</li> <li>• Expand infrastructure.</li> <li>• Implement preproduction planning or to streamline production or control processes and similar.</li> <li>• Establish new institutions or continue existing institutions through operating grants etc.</li> <li>• Fund operating expenses in connection with partnerships, as these are expected to be paid by the participating parties.</li> <li>• Purchase land and to fund related costs.</li> <li>• Complete case-processing by the authorities in connection with building projects, environmental approvals and similar.</li> <li>• Obtain patents and similar rights.</li> </ul>

Other

### State Aid

EU Regulations on State aid and de minimis aid must be taken into account when requesting funding from the Estonian Research Council (ETAg).

Support is not considered to be State aid for research and development, if the project has ties to the non-economic activities of the Research (or Host) Institution, as long as the research and development activities and the related costs, funding and revenue can be clearly separated, thus avoiding the cross subsidization of economic activity.

The criteria defined in Clauses 17-22 of Communication from the European Commission – Framework for State aid for research and development and innovation (2014/C 198/01) forms the basis for determining whether the activities carried out are economic activities and whether the Host Institution is an undertaking who is considered to be a State aid recipient when it receives support.

When an entity applies for State aid or de minimis aid, it has to fill in the **State aid form**. No tax arrears are allowed on the proposal submission date.

If State aid and de minimis aid are given, the documents related to giving the support must be kept for 10 years as of the date when the agreement was entered into.

### State aid pursuant to the Block Exemption Regulation

If the support is considered to be State aid, then support is given on the basis of Article 25, 25a or 25c of Commission Regulation (EU) No 651/2014 declaring certain categories of aid compatible with the internal market in application of Articles 107 and 108 of the Treaty (OJ L 187, 26.6.2014, p. 1–78) (hereinafter the Block Exemption Regulation), and the provisions of the Commission Regulation and Section 34<sup>2</sup> of the Estonian Competition Act apply.

State aid is not given in cases specified under Articles 1(2) to (5) of the Block Exemption Regulation.

If State aid is given on the basis of Article 25, the eligible costs of the project activities must comply with the requirements specified under Article 25(3) of the Block Exemption Regulation (except clause (c)), and the maximum aid intensity must comply with Articles 25(5) and (6). For State aid given on the basis of Articles 25a or 25c, see rules laid down in mentioned Articles accordingly.

If the support applied for can be considered to be State aid, the application must include the information specified in Article 6(2) of the Block Exemption Regulation, and the application has to be submitted before the start of the activities.

If State aid is given, then the costs of the activities carried out before application submission will not be eligible for aid.

### De minimis aid

If support is considered de minimis aid, then giving support is subject to Commission Regulation (EU) No 1407/2013 on the application of Articles 107 and 108 of the Treaty on the Functioning of the European Union to de minimis aid (OJ L 352, 24.12.2013, p. 1–8) (hereinafter the De Minimis Aid Regulation), and the provisions of the Regulation and Section 33 of the Estonian Competition Act apply.

De minimis aid is not given in cases specified under Article 1(1) of the De Minimis Aid Regulation.

In case of de minimis aid, the maximum aid intensity must comply with Article 3 of the De Minimis Aid Regulation.

De minimis aid given to the Host Institution together with de minimis aid applied for as support cannot exceed 200,000 euros during the current financial year and the two previous financial years.

	<p>Article 5 of the De Minimis Aid Regulation applies to cumulating de minimis aid. A single undertaking is an undertaking specified in Article 2(1) of the De Minimis Aid Regulation.</p> <p><b>Grant Agreement</b> If a positive funding decision is made, the Estonian Research Council enters into a grant agreement with the Host Institution. Information on the transnational project must be entered into ETIS once the agreement has been signed. The Consortium Agreement should be signed at the latest six months after the grant agreement has been signed. If one year has elapsed and the CA has not been signed, the next instalment of funding will not be paid out.</p> <p><b>Research Involving Human Subjects or Animal Testing</b> If human research or animal testing are intended in the project, a positive resolution by the Human Research Ethics Committee or the Authorisation Committee for Animal Experiments must be submitted to the Estonian Research Council by the start of the relevant activities.</p> <p><b>Nagoya Protocol</b> By applying for funding by the Estonian Research Council, the applicants agree to consider the relevance of the Nagoya protocol for their research, and to submit the Due Diligence Declaration, if applicable.</p>

## ESTONIA – Ministry of Economic Affairs and Communications (MKM)

### a) National information and eligibility criteria

<b>Contact Point</b>	Name: Raili Allmae E-mail: <a href="mailto:raili.allmae@kliimaministeerium.ee">raili.allmae@kliimaministeerium.ee</a> Name: Andro Truuverk E-mail: <a href="mailto:andro.truuverk@kliimaministeerium.ee">andro.truuverk@kliimaministeerium.ee</a>
<b>Funding commitment</b>	150 000 €
<b>Anticipated number of projects to be funded</b>	1
<b>Maximum funding per awarded project / per partner</b>	150 000 €
<b>Eligible types of organisations</b>	<p><b>1. Project Participants</b></p> <p><b>1.1. The Principal Investigator</b> is a researcher who acts as the Estonian team leader in the project proposal. The Principal Investigator is responsible for how the Estonia's part in the grant budget is allocated and how Estonia's part in the project is executed in case of a positive funding decision.</p> <p>The Principal Investigator:</p> <p><b>1.1.1.</b> Must have an updated public profile in the Estonian Research Information System (ETIS) by the submission deadline;</p> <p><b>1.1.2.</b> Must hold a doctoral degree or an equivalent qualification. The degree must be awarded at the latest by the submission deadline of the grant application;</p> <p><b>1.1.3.</b> Must have published or received formal acceptance for at least three articles that comply with the requirements of Clause 1.1 of the ETIS classification of publications, or at least five articles that comply with the requirements of Clauses 1.1, 1.2, 2.1 or 3.1, within the last five calendar years prior to the proposal submission deadline.<sup>1</sup> International patents are equalled with publications specified under Clause 1.1. A monograph (ETIS Clause 2.1) is equalled with three publications specified in Clause 1.1 if the number of authors is three or fewer. If the applicant has been on pregnancy and maternity or parental leave or performed compulsory service in the Defence Forces, or has another acceptable reason, they can request the publication period requirement to be extended by the relevant period of time.</p>

	<p><b>1.2. The Host Institution</b> may be any legal entity that is registered and located in Estonia. The Host Institution must confirm to the Estonian Ministry of the Environment (with a confirmation letter after the submission deadline) that the project can be carried out on their premises and that they will employ the Principal Investigator during the proposed project, should the project receive funding. If the Host Institution is a for-profit institution, then State aid and de minimis aid regulations must be taken into account (see Section 3 <b>State Aid</b> ).</p>
<b>Eligible Call Modules</b>	All topics
<b>Eligible type of RDI and TRL</b>	Applied research TRL: 3-7
<b>Submission of the (pre)proposal at the national level</b>	No
<b>Additional eligibility criteria</b>	Private enterprises should submit the state aid information.
<b>Eligible costs</b>	<p><b>2. Requested Budget</b></p> <p><b>2.1. Research expenses</b> consist of direct costs, indirect costs and subcontracting costs. The research expenses must be used to carry out the project and be separately identifiable.</p> <p><b>2.2. Direct costs</b></p> <p><b>2.2.1. Personnel costs</b> are monthly salaries with social security charges and all the other statutory costs of the project participants, calculated according to the person's commitment and in proportion to the person's total workload at their Host Institution.</p> <p><b>2.2.2. Scholarships</b> may be paid to master's and doctoral students. Alternatively, remuneration can be paid as salary to students. All payments to the students should be done according to the usual practices of the Host Institution, following the Estonian legal acts.</p> <p><b>2.2.3. Travel costs</b> may cover expenses for transport, accommodation, daily allowances and travel insurance. Fringe benefits are ineligible costs.</p> <p><b>2.2.4. Other direct costs</b> include:</p> <ul style="list-style-type: none"> <li>- consumables, IT software, licences and minor equipment related to the project;</li> <li>- publication and dissemination of project results;</li> <li>- organising meetings, seminars or conferences (room rent, catering);</li> <li>- fees for participating in scientific forums, conferences and other events related to the project;</li> </ul>

	<p>- all other costs that are identifiable as clearly required for carrying out the project (e.g. translation, copy editing, webpage hosting, etc.).</p> <p><b>2.3. Subcontracting costs</b> should cover only the additional or complementary research related tasks (e.g. analyses, conducting surveys, building a prototype, etc.) performed by third parties. Core project tasks should not be subcontracted. Subcontracting costs should not be included in the overhead calculation. The activities and budget should be described in the proposal. Subcontracting costs may not exceed <b>15% of the total requested budget</b>.</p> <p><b>2.4. Overhead costs</b> are indirect costs, which may not exceed <b>15% of the eligible personnel costs</b> (order of the Minister of the Environment on the overhead costs: <a href="https://adr.envir.ee/et/document.html?id=36a914d4-a430-438e-85b1-91b3e1584044">https://adr.envir.ee/et/document.html?id=36a914d4-a430-438e-85b1-91b3e1584044</a>) and should cover the general expenses of the Host Institution. Overhead costs of the Host Institution may include include costs of office supplies; communication services; current expenditure on postal and electronic communications; maintenance and repair costs for IT and office equipment; utility costs; rental cost; costs of opening and managing a bank account and transfer fees only related to the project; security service; land tax.</p> <p><b>2.5. Double funding</b> of activities is not acceptable.</p>
<p><b>Maximum amount of requested funding</b></p>	<p>150 000</p>
<p><b>Information available at</b></p>	<p>(not yet public)</p>
<p><b>Other</b></p>	<p><b>3. State Aid</b></p> <p>EU Regulations on State aid and de minimis aid must be taken into account when requesting funding from the Estonian Ministry of the Environment.</p> <p>The grant is not considered to be State aid for research and development, if the project has ties to the non-economic activities of the Research (or Host) Institution, as long as the research and development activities and the related costs, funding and revenue can be clearly separated, thus avoiding the cross subsidisation of economic activity.</p> <p>The criteria defined in Clauses 17–22 of Communication from the European Commission – Framework for State aid for research and development and innovation (2014/C 198/01) forms the basis for determining whether the activities carried out are economic activities and whether the Host Institution is an undertaking that is considered to be a State aid recipient when it receives support.</p> <p>When an entity applies for State aid or de minimis aid, it has to fill in the State aid form. No tax arrears are allowed on the proposal submission date.</p>

If State aid and de minimis aid are given, the documents related to giving the support must be kept for 10 years as of the date when the agreement was entered into.

If the grant is considered State aid or de minimis aid, then it will not be granted to a Host Institution that is subject to a support withdrawal decision pursuant to a previous European Commission decision deeming the aid illegal and incompatible with the common market, if that decision has not been complied with.

### **3.1. State aid pursuant to the Block Exemption Regulation**

If the grant is considered to be State aid, then it is allocated on the basis of Article 25 of Commission Regulation (EU) No 651/2014 declaring certain categories of aid compatible with the internal market in application of Articles 107 and 108 of the Treaty (OJ L 187, 26.6.2014, p. 1–78) (hereinafter the Block Exemption Regulation), and the provisions of the Commission Regulation and Section 34<sup>2</sup> of the Estonian Competition Act apply.

State aid is not given in cases specified under Articles 1(2) to (5) of the Block Exemption Regulation.

In case of State aid, the eligible costs of the project activities must comply with the requirements specified under Article 25(3) of the Block Exemption Regulation (except clause (c)), and the maximum aid intensity must comply with Articles 25(5) and (6).

If the grant applied for can be considered to be State aid, then the application must include the information specified in Article 6(2) of the Block Exemption Regulation, and the application has to be submitted before the start of the activities.

### **3.2. De minimis aid**

If the grant is considered de minimis aid, then the funding is subject to the Commission Regulation (EU) No 1407/2013 on the application of Articles 107 and 108 of the Treaty on the Functioning of the European Union to de minimis aid (OJ L 352, 24.12.2013, p. 1–8) (hereinafter the De Minimis Aid Regulation), and the provisions of the Regulation and Section 33 of the Estonian Competition Act apply.

De minimis aid is not given in cases specified under Article 1(1) of the De Minimis Aid Regulation.

In case of de minimis aid, the maximum aid intensity must comply with Article 3 of the De Minimis Aid Regulation.

De minimis aid given to the Host Institution together with de minimis aid applied for cannot exceed 200,000 euro during the current financial year and the two previous financial years.

	<p>Article 5 of the De Minimis Aid Regulation applies to cumulating de minimis aid.</p> <p>A single undertaking is an undertaking specified in Article 2(1) of the De Minimis Aid Regulation.</p> <p><b>4. Grant Agreement</b></p> <p>If a positive funding decision is made, the Estonian Ministry of the Environment enters into a grant agreement with the Host Institution and the Principal Investigator. Information on the transnational project must be entered into ETIS once the agreement has been signed.</p> <p>The Consortium Agreement (CA) should be signed at the latest six months after the grant agreement has been signed. If one year has elapsed and the CA has not been signed, the next instalment of funding will not be paid out.</p> <p><b>5. Research Involving Human Subjects or Animal Testing</b></p> <p>If human research or animal testing are intended in the project, a positive resolution by the Human Research Ethics Committee or the Authorisation Committee for Animal Experiments must be submitted to the Estonian Ministry of the Environment by the start of the relevant activities.</p> <p><b>6. Nagoya Protocol</b></p> <p>By applying for funding by the Estonian Ministry of the Environment, the applicants agree to consider the relevance of the Nagoya protocol for their research, and to submit the Due Diligence Declaration, if applicable.</p>

## FRANCE – Agence Nationale de la Recherche (ANR)

### a) National/Regional information and eligibility criteria

<b>Contact Point</b>	<p>Name: Pascal Bain Head of the SPICE Scientific Department <a href="mailto:Pascal.bain@agencerecherche.fr">Pascal.bain@agencerecherche.fr</a></p> <p>Name: Negar Naghavi-Fleury Scientific Officer <a href="mailto:Negar.naghavi-fleury@agencerecherche.fr">Negar.naghavi-fleury@agencerecherche.fr</a></p> <p>Name: Elisa Meriggio for TRI 2 and TRI 4 Scientific Project Manager <a href="mailto:Elisa.meriggio@agencerecherche.fr">Elisa.meriggio@agencerecherche.fr</a></p> <p>Name: Thamires Moreira for TRI 1, TRI 3 and TRI 7 Scientific Project Manager <a href="mailto:Thamires.moreira@agencerecherche.fr">Thamires.moreira@agencerecherche.fr</a></p>
<b>Funding commitment</b>	3 000 000 €
<b>Anticipated number of projects to be funded</b>	8 to 10
<b>Maximum funding per awarded project/per partner</b>	<p>500 000 € per project as a maximum in exceptional and highly justified cases.</p> <p>However, ANR expects typical funding requests per project to range between 200 000 and 350 000 €, depending on the number of ANR-funded partners involved and whether the coordinator of the project is funded by ANR or not.</p>

<p><b>Eligible types of organisations</b></p>	<p>Please consult the ANR Funding regulations and the Appendix for applicants to ANR on the ANR website for detailed information <a href="https://anr.fr/CETP-2023">https://anr.fr/CETP-2023</a></p> <p>Within this framework, public research organisations (such as Universities, EPST or EPIC) as well as private entities (such as companies, NGOs and foundations) and public authorities may be eligible (provided that at least one French public research organisation requesting funding to ANR is involved in the consortium).</p>
<p><b>Eligible Call Modules</b></p>	<p>Only the following Call Modules are eligible for ANR:</p> <ul style="list-style-type: none"> <li>- TRI1 CM1: DC technologies for power networks</li> <li>- TRI2 CM3A: Advanced renewable energy technologies for power production (ROA)</li> <li>- TRI3 CM4: Carbon capture, utilisation, and storage (CCUS)</li> <li>- TRI3 CM5: Hydrogen and renewable fuels. Concerning hydrogen production only green hydrogen production will be eligible for ANR.</li> <li>- TRI4 CM6: Heating and cooling technologies</li> <li>- TRI4 CM7: Geothermal energy technologies</li> <li>- TRI7 CM10A: R&amp;I for clean energy integration in the built environment (ROA)</li> </ul>
<p><b>Eligible types of RDI and TRL</b></p>	<p>Basic Research, Industrial/ Applied Research/ Experimental development.</p> <p>TRL 3-5 (activities at TRL above 5 are possible but must be marginal for partners requesting funding from ANR).</p>
<p><b>Submission of proposal /documentation at national/regional level</b></p>	<p>No for the pre-proposal stage.</p> <p>For the full-proposal stage, partners requesting funding from ANR will be asked to apply on the ANR submission platform.</p>

<p><b>Additional eligibility criteria</b></p>	<p>A project proposal cannot be similar in whole or in part to another proposal submitted for a call currently being evaluated by ANR (all calls for proposals and evaluation stages considered) or already funded by ANR. The similarity between two projects is established when these projects (in their entirety or in part) describe identical main objectives or result from a simple adaptation.</p> <p>The minimal funding per partner by ANR is 15 000 €.</p> <p>Companies with economic difficulties are excluded from ANR subventions.</p> <p>Partners from countries subject to sanctions applicable to the research field by the European Union authorities are excluded from this call for ANR. ANR will declare Partners requesting its support ineligible if they apply with Partners established in these countries. At the date of publication, these exclusions concern Partners from the following countries: Russia, Belarus. This list may evolve in case of new sanctions decided by the European Union.</p>
<p><b>Eligible costs</b></p>	<p>ANR funds basic, industrial research and experimental development activities.</p> <p>The eligibility of costs and rates of funding depend on types of partners, consortia composition and types of research activities. See ANR funding regulations for more details: <a href="https://anr.fr/fr/rf/">https://anr.fr/fr/rf/</a></p>
<p><b>Information available at</b></p>	<p>A specific web page on the ANR web site is published at the opening of the Call, with details for potential applicants to ANR.</p> <p><a href="https://anr.fr/CETP-2023">https://anr.fr/CETP-2023</a></p>
<p><b>Other</b></p>	<p>It is highly recommended to contact the national contact persons during the preparation of the project.</p> <p>Depending on the consortium composition, a Consortium Agreement may be mandatory for ANR at the funding stage for successful applications. Please refer to the ANR funding regulations for more details: <a href="https://anr.fr/fr/rf/">https://anr.fr/fr/rf/</a></p>

## b) Funding rates

## FRANCE - PAYS DE LA LOIRE – Pays de la Loire Region Council – (RPL)

### a) National/Regional information and eligibility criteria

<b>Contact Point</b>	Eric MATHIEU +33 (0)6 07 68 29 99
<b>Funding commitment</b>	1,5M€
<b>Anticipated number of projects to be funded</b>	-
<b>Maximum funding per awarded project/per partner</b>	No maximum funding
<b>Eligible types of organisations</b>	<p>Small, Medium and large companies established and carrying out R&amp;D activities in Pays de la Loire. Other entities such as universities, public research institutions, technological centres, and other private non-profit institutions may also participate : they will be funded only if a company from Pays de la Loire is also partner of the consortium and is funded.</p> <p>Project activities in the proposed work plan funded by the Regional Council Pays de la Loire must be implemented in Pays de la Loire, or at least mobilise resources based in Pays de la Loire.</p>
<b>Eligible Call Modules</b>	TRI2 – Call Module 3B (Innovation Oriented Action) : Advanced Renewable Energy (RE) technologies for power production
<b>Eligible types of RDI and TRL</b>	<p>Projects may comprise industrial/applied research or experimental activities.</p> <p>Projects (IOA) are expected to make relevant progress towards the demonstration of technology to TRL 6 or above (target TRL).</p>
<b>Submission of proposal /documentation at national/regional level</b>	<p>No additional submission of proposal at regional level</p> <p>--&gt; <a href="https://cetp-submission.mur.gov.it/">https://cetp-submission.mur.gov.it/</a></p>
<b>Additional eligibility criteria</b>	Companies must have been created since more than one year and have generated sufficient revenues.
<b>Eligible costs</b>	<p>Personnel costs i.e. the cost of researchers, technicians and other supporting staff to the extent employed on the relevant project or activity (gross salary, without overheads).</p> <p>Indirect costs: 15% of personnel costs.</p> <p>Contractual research costs, technical knowledge and patents bought or licensed from outside sources at market prices, and costs for consulting and equivalent services intended exclusively for the research activity.</p> <p>Other operating expenses, including costs for material, supplies and similar products, which result directly from the research project.</p> <p>Instrument and equipment costs, to the extent and during the period in which they are used for the research project.</p>

<b>Information available at</b>	<a href="https://www.paysdelaloire.fr/clean-energy-transition-partnership-cetp">https://www.paysdelaloire.fr/clean-energy-transition-partnership-cetp</a>
<b>Other</b>	

## b) Funding rates

Maximum funding percentages:

	<b>Basic research</b>	<b>Industrial/Applied Research</b>	<b>Experimental development/innovation</b>
<b>Large Enterprises</b>	Ineligible	65%	40%
<b>Medium Enterprises</b>	Ineligible	75%	50%
<b>Small Enterprises</b>	Ineligible	80%	60%
<b>Universities, public research organisations</b>	Ineligible	75% of total eligible costs or 100% of marginal costs	75% of total eligible costs or 100% of marginal costs
<b>Public authorities</b>	Ineligible	Ineligible	Ineligible
<b>Associations without economic activities, NGOs</b>	Ineligible	Ineligible	Ineligible

Support levels will be determined by the legal status of the applicant, the size of company and the proposed activity. The support level may vary from one work package to another. A part of the funding may be attributed through loans. The final support level and its form will be definitively defined after the selection phase.

## GREECE – GENERAL SECRETARIAT FOR RESEARCH AND INNOVATION (GSRI)

### a) National/Regional information and eligibility criteria

<b>Contact Point</b>	<p><b>-Dr Anna Rosenberg</b> International S&amp;T Cooperation Directorate Bilateral and Multilateral Cooperation Department 14-18, Mesogeion Ave., GR-115 27 Athens, Greece Tel.: +30 213 13 00 095 Fax: +30 210 7714153 E-mail: <a href="mailto:a.rosenberg@gsrt.gr">a.rosenberg@gsrt.gr</a></p> <p><b>-Ms. Alikí – Maria Argyri</b> International S&amp;T Cooperation Directorate European Union and International Organizations Department 14-18, Mesogeion Ave., GR-115 27 Athens, Greece Tel: +30 213 1300101 E-mail: <a href="mailto:a.argyri@gsrt.gr">a.argyri@gsrt.gr</a></p>
<b>Funding commitment</b>	Initial investment 500.000,00€
<b>Anticipated number of projects to be funded</b>	2-3
<b>Maximum funding per awarded project/per partner</b>	Upper limit of the total public funding will be 200.000 € per project (including indirect costs). Please note that this amount can be increased to 250.000 € per project if Greek partner assumes the project coordination. The maximum state aid intensity will be calculated according to the provisions of the European state aid rules and regulations in force (type of research activity, size of the participating enterprise, collaborative research).
<b>Eligible types of organisations</b>	<p>GSRI potentially supports all private and public legal entities namely: private enterprises (such as SMEs, large-companies etc), research organizations, higher education institutions, and other public organizations with R&amp;D activities). Individuals as well as individual enterprises are not eligible under this scheme.</p> <p>Applicants may submit, if they are enterprises, up to two (2) proposals from the same enterprise in the current call, and for Public research Institutes and Universities up to (2) proposals at the level of the same Laboratory or School or Institute or Department.</p>
<b>Eligible Call Modules</b>	TRI 1, 2, 4, 5

<p><b>Eligible type of RDI and TRL</b></p>	<p>TRL3-(8) in compliance with the (COMMISSION REGULATION (EU) 2021/1237 of 23 July 2021 amending Regulation (EU) No 651/2014 declaring certain categories of aid compatible with the internal market in application of Articles 107 and 108 of the Treaty, page 3, article 13)</p>
<p><b>Submission of proposal /documentation at national/regional level</b></p>	<p>At national level, only eligibility check is conducted and not a full peer review at pre-proposal and full proposal stages. We rely on the evaluation made by the Call Evaluation Committee and external reviewers.</p> <p><b><i>Submission at the national level is required at a later stage.</i></b> A national procedure will follow for the approved for funding, at the transnational level, proposals only. For more information please contact the NCP.</p>
<p><b>Additional eligibility criteria</b></p>	<p></p>

DRAFT

**Eligible costs**

 ➤ **Aid of intensity**

**Public research Institutes and Universities:** the aid intensity can reach 100% for performing non-economic activities in accordance with point 19, article 2.1.1 of the «Framework for State aid for research and development and innovation» (2014/C 198/01).

**Private Sector:** (a) 50% of the eligible costs for industrial research; (b) 25% of the eligible costs for experimental development; (c) 50% of the eligible costs for feasibility studies.- The aid intensities for industrial research and experimental development may be increased up to a maximum aid intensity of 80% of the eligible costs as follows:

(a) by 10 percentage points for medium-sized enterprises and by 20 percentage points for small enterprises;

(b) by 15 percentage points if one of the following conditions is fulfilled:

(i) the project involves effective collaboration:

— between undertakings among which at least one is an SME, or is carried out in at least two Member States, or in a Member State and in a Contracting Party of the EEA Agreement, and no single undertaking bears more than 70 % of the eligible costs, or

— between an undertaking and one or more research and knowledge-dissemination organisations, where the latter bear at least 10 % of the eligible costs and have the right to publish their own research results;

(ii) the results of the project are widely disseminated through conferences, publication, open access repositories, or free or open source software.

-The aid intensity for feasibility studies may be increased by 10 percentage points for medium-sized enterprises and by 20 percentage points for small enterprises.

 ➤ **Foreseen cost categories:**

(a) personnel costs: researchers, technicians and other supporting staff to the extent employed on the project.

(b) costs on fixed assets i.e. b1) costs of instruments and equipment to the extent and for the period used for the project. Where such instruments and equipment are not used for their full life for the project, only the depreciation costs corresponding to the life of the project, as calculated on the basis of generally accepted accounting principles are considered as eligible and b2) costs for buildings and land, to the extent and for the duration period used for the project. With regard to buildings, only the depreciation costs corresponding to the life of the project, as calculated on the basis of generally accepted accounting principles are considered as eligible. For land, costs of commercial transfer or actually incurred capital costs are eligible.

(c) costs of contractual research, knowledge and patents bought or licensed from outside sources at arm's length conditions, as well as costs of consultancy and equivalent services used exclusively for the project.

(d) additional general costs and other operating expenses, including costs of materials, supplies, travel expenses, organization of meetings, dissemination/publicity costs, audit costs, incurred directly as a result of the project implementation.

(e) indirect costs = 25% of direct costs. Indirect costs are eligible for all legal entities and include costs that do not incur directly as a result of the project implementation (e. g. administrative and management costs, utility costs).

In compliance with the (COMMISSION REGULATION (EU) 2021/1237 of 23 July 2021 amending Regulation (EU) No 651/2014 declaring certain categories of aid compatible with the internal market in application of Articles 107 and 108 of the Treaty.

## INDIA-NEW DEHLI – Department of Science & Technology , Ministry of Science & Technology, Government of India (DST)

### a) National/Regional information and eligibility criteria

<p><b>Contact Point</b></p>	<p><b><u>Primary Contact 1:</u></b> Dr Neelima Alam, Email: neelima.alam@nic.in , Phone No.: +91-11- 26590467</p> <p><b><u>Primary Contact 2:</u></b> Dr Sanjai Kumar Email: sanjai.k@gov.in , Phone No.: +91-11-26590270</p> <p><b><u>Secondary Contact:</u></b> Dr. Anita Gupta, Email: anigupta@nic.in , Phone No.: +91-11-26590213</p>
<p><b>Funding commitment</b></p>	<p><b>Call Module 4:</b> 1 Million Euro (Equivalent Indian Rupees: Approx. Rs 9 Crore)</p>
<p><b>Anticipated number of projects to be funded by the funding partner</b></p>	<p>Max. 3 projects (The numbers can be modified for the suitable project within the funding limit). Funding will be divided into approx. equal weightage to carbon capture, carbon utilization/conversion and storage/sequestration.</p>
<p><b>Maximum funding per awarded project/per</b></p>	<p>Maximum funding for Indian partners for awarded project will be restricted to maximum 0.33 Million Euro (Equivalent Indian Rupees:</p>

<p><b>Eligibility of a partner as a beneficiary institution</b></p>	<ul style="list-style-type: none"> <li>• The proposals are to be led by faculties/scientists working in regular position in recognized Academic Organizations/Public funded R&amp;D Institutions/Laboratories, Central and State Government autonomous organizations in partnership with other academic/R&amp;D organisation, DSIR recognized SIRO organizations, Central and state autonomous organisations, industry association, industries etc.</li> <li>• The proposals submitted with well-defined and synergistic institute - user - industry partnership are encouraged.</li> <li>• All Indian partners in a single project must be separate legal entities. However, there can be more than one investigator from the same entity.</li> <li>• Participating Indian companies must:             <ol style="list-style-type: none"> <li>1.) Be incorporated in India under the Companies Act 1956/2013.</li> <li>2.) Have at least 51% stake of the Company be owned by Indian citizens and Headquartered in India.</li> <li>3.) Have been in operation for at least 3 financial years before the closing date for application.</li> <li>4.) Be registered under relevant provisions of Good &amp; Services Taxation (GST) Act.</li> <li>5.) Have required expertise and capacity to technically contribute to the proposed project.</li> <li>6.) The maximum funding for Industry will not be more than their MSME definition based on Investment in plant and machinery for manufacturing Sector and Investment in equipment for Service Sector (MSMED Act 2006 or their consecutive amendments).</li> <li>7.) DST funding for Industry will be inline with the rates mentioned in the table at Annexure -I enclosed.</li> <li>8.) Industry contribution should only be in cash.</li> <li>9.) The man-hours of existing workforce, utilization of facilities etc. will not be counted as industry contribution.</li> <li>10.) Indian industry/association may receive their part of the eligible costs on a <b>“Reimbursement Basis”</b>, for costs already incurred on a proportionate basis</li> </ol> </li> </ul>
	<ul style="list-style-type: none"> <li>• <b>Companies need to provide the following with the First Stage application:</b> <ul style="list-style-type: none"> <li>✓ Evidence they have the resources and finances to undertake the project.</li> <li>✓ An audited copy of their submitted annual accounts for the last three fiscal years.</li> </ul> </li> </ul> <p><b>Please note:</b></p> <ul style="list-style-type: none"> <li>• Sole proprietors and partnership firms are not eligible for support under this programme.</li> <li>• Companies headquartered and owned outside India and their subsidiaries in India, or vice versa, are not eligible to receive funding directly or indirectly.</li> </ul>
<p><b>Eligible topics</b></p>	<p>CM (Call Module )2023-04: Carbon capture, utilisation, and storage (CCUS)</p>

<b>Eligible type of RDI and TRL</b>	<b>TRL 1-5</b>
<b>Submission of the proposal at national/regional level</b>	The applicant is required to submit a full copy of the proposal to the Department of Science and Technology at <a href="https://onlinedst.gov.in/">https://onlinedst.gov.in/</a> This proposal must be identical to what has been submitted to CETP and needs to be submitted to DST immediately after submission to CETP secretariat. The dates for submission and requirement for additional documentation for Indian applicants.
<b>Additional eligibility criteria for the funding agency</b>	<b>YES.</b> The evaluation and selection of project proposals to fund will be as per the steps described in the CETP Programme managers handbook.
<b>Eligible costs</b>	<ul style="list-style-type: none"> <li>• All project-related costs (e.g. Equipment, Personnel, Consumables, Contingencies, Travels, Other Costs, Overheads etc.) will be covered.</li> <li>• Capital/Non-recurring costs are to be capped at max. 30% of the total project cost.</li> <li>• Indian applicants must comply with the <b>Department of Science &amp; Technology (DST), India</b> Rules and Regulations regarding all eligible costs.</li> </ul> Unless agreed otherwise: <ul style="list-style-type: none"> <li>○ Subcontracting is to be capped at a maximum of 20% of the Indian budget.</li> <li>○ All India eligible costs, including sub-contracts, should be incurred within India.</li> <li>○ Project management costs cannot be sub-contracted</li> </ul>
<b>Information available at</b>	
<b>Other</b>	All the funded projects would be bound by guidelines stipulated by the Department of Science and Technology from time to time. The detailed guidelines for this call will appear on DST website, which will supercede anything stated here. The applicants may approach the national contact for specific queries at any stage of the project.

**Annexure-I**

## b) Funding rates

Maximum funding percentages:

	Basic research	Industrial/Applied Research	Experimental development/innovation
<b>Large Enterprises</b>	15%	15%	15%
<b>Medium Enterprises</b>	15%	15%	15%
<b>Small Enterprises</b>	20%	20%	20%
<b>Universities, public research organisations</b>	100%	100%	100%
<b>Public authorities</b>	75%	75%	75%
<b>Associations without economic activities, NGOs</b>	-		

Note :

- (1) Indian Enterprises may receive their part of the eligible costs on a “**Reimbursement Basis**”, for costs already incurred on a proportionate basis through the lead organization.
- (2) Rates mentioned above will be the maximum cap on funding lines subject to DST funding guidelines.

## IRELAND – Geological Survey Ireland (GSI)

### a) National/Regional information and eligibility criteria

<b>Contact Point</b>	Aoife Braiden, Geological Survey Ireland (Department of the Environment, Climate and Communications) <a href="mailto:research@gsi.ie">research@gsi.ie</a>
<b>Funding commitment</b>	€200,000
<b>Anticipated number of projects to be funded</b>	1-2
<b>Maximum funding per awarded project/per partner</b>	€200,000
<b>Eligible types of organisations</b>	<p>SMEs and research organisations are eligible to apply.</p> <p>All funding must be in line with State Aid (it is the responsibility of the beneficiary to ensure compliance)</p>
<b>Eligible Call Modules</b>	Geothermal Call Module, TRI4
<b>Eligible types of RDI and TRL</b>	<p>Geothermal heating and cooling. For example: resource estimation, resource management, subsurface management, geoscience data, social acceptance of geothermal energy, geology and geotechnical engineering related to subsurface thermal storage.</p> <p>Applicants must check in advance with GSI if the proposed topic is eligible</p> <p>TRL 1-7 eligible</p>
<b>Submission of proposal /documentation at national/regional level</b>	<p>Applicants must be eligible under GSI rules to apply – all applicants must contact GSI in advance of submission.</p> <p>The proposal will not be reviewed for quality of scientific content at national level, but will be assessed to ensure the topic is within the remit of the GSI and adhering to budget and eligibility rules.</p>

<b>Additional eligibility criteria</b>	Eligibility check will be conducted regarding (a) topic, (b) eligibility of the host organisation and (c) budget.
<b>Eligible costs</b>	Direct costs (staff, fieldwork, travel, consumables etc) + indirect costs, max 15% (of total direct costs). Durable equipment of <€10,000 is eligible but must be clearly justified and depreciation rules applied. Applicants must have pre-approval from GSI for any equipment > €10,000 with depreciation and standard accounting rules applied.
<b>Information available at</b>	<a href="mailto:research@gsi.ie">research@gsi.ie</a>  <a href="#">GSI website</a>

## MALTA – MALTA COUNCIL FOR SCIENCE AND TECHNOLOGY (MCST)

### a) National/Regional information and eligibility criteria

<b>Contact Point</b>	Ms. Martina Vella
<b>Funding commitment</b>	€500,000
<b>Anticipated number of projects to be funded</b>	A minimum of 1 (According to the number of applications received and the requested funding.)
<b>Maximum funding per awarded project/per partner</b>	€500,000
<b>Eligible types of organisations</b>	<p>Malta-based applicants that are Eligible Undertakings, with an Operating Base in Malta, which plan to carry out Fundamental, Industrial Research or Experimental Development projects are eligible for funding, subject to the terms and conditions laid out in the latest version of the National Rules. Eligible Undertakings can be: <b>a)</b> a partnership constituted under the Companies Act, being a partnership <i>en nom collectif</i>, <i>en commandite</i> or a limited liability company; or <b>b)</b> be duly registered as a co-operative society under the Co-Operative Societies Act, or <b>c)</b> professional body; or <b>d)</b> NGO; or <b>f)</b> Non-profit making entity (including Foundation).</p> <p>Any Public Entity or Public Research or Knowledge-Dissemination Organisation registered in Malta, that do not carry out an economic activity within the meaning of Article 107 TFEU, will be eligible for funding subject to the terms and conditions laid out in the latest version of the National Rules for Participation (Non-State Aid).</p>
<b>Eligible Call Modules</b>	All Call Modules within all Transition Initiatives
<b>Eligible types of RDI and TRL</b>	<b>Fundamental Research, Industrial Research and Experimental Development</b> <b>TRL 3 - 7</b>

<p><b>Submission of proposal /documentation at national/regional level</b></p>	<p>A national application form <b>must</b> be submitted by the specified deadline within the National Rules. All national documentation will be available to download from <a href="https://mcst.gov.mt/funding-opportunities/">https://mcst.gov.mt/funding-opportunities/</a> .</p> <p>The national application form is to be sent <b>by the stipulated deadline</b> to <a href="mailto:eusubmissions.mcst@gov.mt">eusubmissions.mcst@gov.mt</a> .</p> <p>For any further information applicants can contact MCST as follows:</p> <p>Lead Call Manager – Ms. Martina Vella: <a href="mailto:martina.vella.5@gov.mt">martina.vella.5@gov.mt</a>          Alternate Call Manager – Ms. Annalisa Cartabia: <a href="mailto:annalisa.cartabia@gov.mt">annalisa.cartabia@gov.mt</a>          Generic email address: <a href="mailto:eusubmissions.mcst@gov.mt">eusubmissions.mcst@gov.mt</a></p>
<p><b>Additional eligibility criteria</b></p>	<p>It is important for all national applicants to refer to MCST’s National Rules for detailed information on the call which can be accessed from MCST’s website: <a href="https://mcst.gov.mt/funding-opportunities/">https://mcst.gov.mt/funding-opportunities/</a>.</p>

DRAFT

<p><b>Eligible costs</b></p>	<p>Any Public Entity or Public Research or Knowledge-Dissemination Organisation registered in Malta, that do not carry out an economic activity within the meaning of Article 107 TFEU are eligible to apply under the <b>non-state aid</b> route. The eligible costs included within non-state aid include:</p> <ul style="list-style-type: none"> <li>- Personnel Costs</li> <li>- Costs of IP and Knowledge Transfer Activities</li> <li>- Instruments, Specialised Equipment and Research Consumables</li> <li>- Travel and Subsistence</li> <li>- Subcontracted Activities</li> <li>- Indirect Costs</li> <li>- Other Operating Expenses</li> </ul> <p>Eligible Undertakings with an operating base in Malta which plans to carry out Fundamental, Industrial Research or Experimental Development projects may be funded under <b>Regulation A (de minimis)</b></p> <ul style="list-style-type: none"> <li>- Personnel Costs</li> <li>- Costs of IP and Knowledge Transfer Activities</li> <li>- Instruments, Specialised Equipment and Research Consumables</li> <li>- Travel and Subsistence</li> <li>- Subcontracted Activities</li> <li>- Indirect Costs</li> <li>- Other Operating Expenses</li> </ul> <p>Or under <b>Regulation B (GBER)</b>, for which eligible costs are:</p> <ul style="list-style-type: none"> <li>- Personnel Costs</li> <li>- Costs of IP and Knowledge Transfer Activities</li> <li>- Instruments, Specialised Equipment and Research (depreciation costs eligible to the extent and for the period used for the project)</li> <li>- Subcontracted Activities</li> <li>- Indirect Costs</li> <li>- Other Operating Expenses</li> </ul>
<p><b>Information available at</b></p>	<p>Further information on the CETPartnership and the funding opportunities in this regard by the Malta Council for Science and Technology can be found on MCST's website:  <a href="https://mcst.gov.mt/mcst-news/clean-energy-transition-partnership-cetpartnership/">https://mcst.gov.mt/mcst-news/clean-energy-transition-partnership-cetpartnership/</a></p>
<p><b>Other</b></p>	<p>N/A</p>

## b) Funding rates

Maximum funding percentages:

MCST offers three funding modalities as follows:

- **Non-State Aid**

The financial contribution to an applicant (i.e., Public Entity or Public Research or Knowledge-Dissemination Organisation as defined above and in the National Rules for Participation) under non-state aid Rules for Participation shall be **100%** of the eligible costs incurred by that Partner.

- **State Aid – Regulation A (*de Minimis*)**

The financial contribution to a project partner (i.e., Eligible Undertaking as defined above and in the National Rules for Participation) applying under Regulation A (*de minimis*) shall be **up to 75%** of the eligible costs incurred on the project by that project partner. The partner must finance the remaining percentage of the eligible costs. It is not possible for a Partner to cover this percentage contribution ‘in-kind’.

- **State Aid – Regulation B (GBER)**

The financial contribution to a project partner (i.e., Eligible Undertaking as defined above and in the National Rules for Participation) applying under Regulation B (GBER) shall following the current criteria:

Type of Research	Small Undertaking	Medium Undertaking	Large Undertaking
Fundamental Research	100%	100%	100%
Industrial Research	70%	60%	50%
Industrial Research with an effective collaboration and/or results are widely disseminated	80%	75%	65%
Experimental Development	45%	35%	25%
Experimental Development with an effective collaboration and/or results are widely disseminated	60%	50%	40%

The

project involves **effective collaboration** if at least one of the following requirements is satisfied:

- Project is being handle between undertakings among which at least one is an SME, or is carried out in at least two Member States, or in a Member State and in a Contracting Party of the EEA Agreement, and no single undertaking bears more than 70% of the eligible costs.
- Between an undertaking and one or more Research and Knowledge-dissemination Organisation/s where the latter bear at least 10% of the eligible costs and have the right to publish their own research results.

For the results of the project to be considered as being widely disseminated, this must be done through conferences, publications, open access repositories, or free or open-source software at the beneficiary's **own** expense. The activities to be undertaken to satisfy these criteria must be clearly made visible in the National Application Form which is to be submitted by the stipulated deadline.

DRAFT

## NETHERLANDS – Rijksdienst voor Ondernemend Nederland RVO

### a) National/Regional information and eligibility criteria

<b>Contact Point</b>	Gerdi Breembroek   Gerdi.breembroek@rvo.nl   +31 6 5256 4480 Jirka Berka   <a href="mailto:Jirka.berka@rvo.nl">Jirka.berka@rvo.nl</a>
<b>Funding commitment</b>	8 million euros total commitment, from Regeling nationale EZK- en LNV-subsidies (RNES) § 4.2.10 ‘Demonstratie energie en klimaatinnovatie’ (DEI+) and/or § 4.2.3 ‘Hernieuwbare energietransitie’ (HER+). Actual funding will be adapted to volume of eligible projects.  To be confirmed: No specific budget from HEP ‘Horizon Europe Partnerships’ § 4.2.18.
<b>Anticipated number of projects to be funded</b>	5-10 projects
<b>Maximum funding per awarded project/per partner</b>	For DEI+ and HER+: limitation as in funding instrument. For ‘HEP’: not applicable (to be confirmed)
<b>Eligible types of organisations</b>	All instruments: at least one company should be collaborating in the consortium. Municipalities and provinces are not eligible.  For DEI+, companies should realise the majority of the project cost. For HER+, (any) involvement of research organisations should be balanced by involvement of companies. The consortium should be suitable to contribute to the aims of the instruments.

<b>Funding commitment</b>	<ul style="list-style-type: none"> <li>• NOK 30 M (approximately € 2.56 M) for Call Module 4: <i>CCUS</i></li> <li>• NOK 24 M (approximately € 2.05 M) all together for Call Module 1: <i>DC technologies for energy networks</i> and Call Module 6: <i>Heating and cooling technologies</i></li> </ul>
<b>Anticipated number of projects to be funded</b>	From 5 to 10
<b>Maximum funding per awarded project</b>	<ul style="list-style-type: none"> <li>• Maximum NOK 10 M for Call Module 4 projects</li> <li>• Maximum NOK 6 M for projects under Call Modules 1 and 6</li> </ul>
<b>Eligible types of organisations</b>	The call is open to approved Norwegian research organisations, actors from public sector entities, non-governmental organisations, and companies from the business/industrial sector.  The main Norwegian partner must be either an approved Norwegian research organisation or a Norwegian company that has been issued an enterprise number under the Norwegian Register of Business Enterprises (Brønnøysundregistrene) and carry out economic activity in Norway.
<b>Eligible Call Modules</b>	<ul style="list-style-type: none"> <li>• Call Module 1: DC technologies for energy networks</li> <li>• Call Module 4: Carbon capture, utilisation, and storage (CCUS)</li> <li>• Call Module 6: Heating and cooling technologies</li> </ul>

<p><b>Eligible types of RDI and TRL</b></p>	<p>For Call Module 4 on CCUS:</p> <ul style="list-style-type: none"> <li>• The Norwegian activities must comply with topics listed in the <a href="#">CLIMIT Program Plan</a></li> <li>• Norwegian activities must lead to long-term CO<sub>2</sub> storage, and CCU activities without long-term CO<sub>2</sub> storage are in-eligible</li> </ul> <p>For Call Modules 1 and 6:</p> <ul style="list-style-type: none"> <li>• The Norwegian activities must comply with priorities within energy systems or heating and cooling as listed in the <a href="#">Portfolio Plan for Energy, transport and low emissions</a> and the priorities in the <a href="#">Energy 21 strategy</a></li> <li>• TRL: maximum 6 at the end of the project</li> </ul>
<p><b>Submission of proposal /documentation at national/regional level</b></p>	<p>A detailed budget for Norwegian partners must be sent on e-mail to the relevant RCN contact persons within November 24<sup>th</sup> 2023 end of business.</p> <p>The budget must include details listed at the <a href="#">RCN web site</a>; Please specify all cost items per partner per year. A template may be provided from your RCN contact person upon request – send us an e-mail.</p>

DRAFT

<p><b>Additional eligibility criterias</b></p>	<p>The Norwegian team of participants must meet one of the two alternative project types listed below:</p> <p><b>1. Knowledge building project</b></p> <ul style="list-style-type: none"> <li>- Projects must aim at developing new knowledge and generate research competence needed by society or the business sector to address important societal challenges.</li> <li>- Collaboration between research group(s) and relevant actors from outside the research sector is required. The team must include at least one approved Norwegian research organisation and at least two relevant Norwegian companies.</li> <li>- Companies are not eligible for financial support.</li> <li>- The Norwegian applicants must document (in their budget) that at least 10 per cent of the Norwegian total costs will be used by the Norwegian industrial or end-user partners.</li> <li>- The Norwegian industrial or end-user partners may contribute with financial support (cash) in addition to the required in-kind efforts.</li> <li>- Letters of Intent from all Norwegian companies are required in stage 1 (pre-proposal), and Letters of Commitment in stage 2 (full proposal). (The letters can be sent on e-mail to the RCN contact persons if problem with uploading them in the submission portal)</li> <li>- Note: Applications without required industrial participation at stage 1 will be in-eligible and not evaluated for potential proceedings to stage 2</li> </ul> <p><b>2. Innovation project for the industrial sector</b></p> <ul style="list-style-type: none"> <li>- Open for projects in which companies are engaged in business-led innovation and where research and development (R&amp;D) is a critical part of the innovation process.</li> <li>- The main Norwegian applicant must be a Norwegian company.</li> <li>- Norwegian research organisation(s) may be partner(s). The cost for research organisation(s) must be covered by the companie(s).</li> <li>- The maximum funding rate for the Norwegian companie(s) is 50%</li> </ul>
<p><b>Eligible costs</b></p>	<p>Eligible costs for Norwegian applicants are defined at the <a href="#">RCN website</a></p>
<p><b>Information available at</b></p>	<p>Relevant links are provided above</p>

<b>Other</b>	<p>Applied funding rates for all Norwegian applicants must comply with European state aid guidelines. Details are available at the <a href="#">RCN website</a>.</p> <p>Please use exchange rates between NOK and Euro close to the due date for submission of your pre-proposal, and specify the exchange rate applied in the application. The applied exchange rate will be binding for all proposals invited further to full proposal and may not be subject to any change.</p>

## b) Funding rates

Maximum funding percentages:

	<b>Basic research</b>	<b>Industrial/Applied Research</b>	<b>Experimental development/innovation</b>
<b>Large Enterprises</b>	not eligible	Up to 50+15 (max 65%)	Up to 25+15 (max 40%)
<b>Medium Enterprises</b>	not eligible	Up to 50+10+15 (max 75 %)	Up to 25+10+15 (max 50 %)
<b>Small Enterprises</b>	not eligible	Up to 50+20+15 (max 80 %)	Up to 25+20+15 (max 60 %)
<b>Universities, public research organisations</b>	not eligible	Up to 100%	Up to 100%
<b>Public authorities</b>	not eligible	not eligible	not eligible
<b>Associations without economic activities, NGOs</b>	not eligible	not eligible	not eligible

Funding quota for Polish participants may be up to 100% for universities and research organisations. In case of enterprises, funding quota will be decided on a case-by-case basis depending on the size of the company and type of research/development under Section 2 of the Regulation of the Minister of Science and Higher Education of 19 August 2020 on granting state aid by the National Centre for Research and Development, published in Journal of Laws item 1456, 2020.

In any case only Industrial Research and Experimental Development will be funded. Other type of activities (e.g. coordination, dissemination, management) cannot be included into separate task.

## PORTUGAL – FUNDAÇÃO PARA A CIÊNCIA E A TECNOLOGIA I.P. (FCT)

## SWITZERLAND – Swiss National Science Foundation (SNSF)

### a) National/Regional information and eligibility criteria

<b>Contact Point</b>	Cédric Leroux E-mail: <a href="mailto:cetp@snf.ch">cetp@snf.ch</a>
<b>Funding commitment</b>	600'000.- (approx € 600.000)
<b>Anticipated number of projects to be funded</b>	1 – 2
<b>Maximum funding per awarded project/per partner</b>	The SNSF provides a <b>minimum grant of 100 000 Swiss francs per projet</b> . The SNSF provides a <b>maximum of 250,000 Swiss francs annually per applicant</b> of a project and a maximum of 1 million francs annually for the project as a whole.
<b>Eligible types of organisations</b>	Applicants must comply with the <a href="#">SNSF Funding Regulations</a> .
<b>Eligible Call Modules</b>	CM 4, CM 8, CM 9, and CM 10A
<b>Eligible types of RDI and TRL</b>	The SNSF <b>exclusively funds basic research</b> conducted for purposes that are not directly commercial. Pursuant to the Research and Innovation Promotion Act (RIPA) and the legal framework of the SNSF, no research grants are awarded if the relevant research is conducted for directly commercial purposes or if the persons involved in the research work are not scientifically independent. Thus, the SNSF can fund basic research and applied research without commercial goals only.  <b>TRL: 1 to maximum 4</b>
<b>Submission of proposal /documentation at national/regional level</b>	<b>Mandatory, parallel submission of pre- and full-proposal via mySNF</b> Swiss-based partners must submit pre-proposals and full proposals <b>via mySNF</b> at the same submission deadline of the consortium application.

	<p>These submissions are mandatory and do not replace the submission of the consortium application to the Call Secretariat.</p> <p><b>Pre-proposal</b> forms are created by selecting "Projects: Partnership: CETP: Pre-proposal".</p> <p><b>Full-proposal</b> forms are created by selecting "Projects: Partnership: CETP: Full proposal" and are to be linked to the pre-proposal by selecting its number in the data container "Relation to pre-proposal".</p> <p><b>In case of multiple, Swiss-based partners participating in the same consortium</b>, only one application is to be submitted on <i>mySNF</i>, whereby one Swiss-based partner must act as "corresponding applicant" and the other Swiss-based partners are to be listed as "other applicants".</p> <p><b>International partners of the consortium</b> applying for funding at different funding agencies from the SNSF cannot be declared as "project partners" in the sense of article 11.2 of the SNSF Funding Regulations. For the submission via <i>mySNF</i>, they are to be declared as "consortium partners" instead and must apply for their funding at their respective research funding organisation.</p>
<p><b>Additional eligibility criteria</b></p>	<p><b>Participation of Swiss-based partners requesting financial support from the SNSF is restricted to one project</b> (Art.7.3, <a href="#">SNSF Regulations on project funding</a>). They may, however, participate in other consortia projects as self-financed partners.</p> <p>The maximum number of grants in the project funding scheme for the same funding period from the SNSF is limited to three grants, provided at least one grant is for an EU consortium project or has been granted on the basis of a lead agency, Weave or International Con-investigator scheme evaluation. <b>Swiss-based investigators who already hold three SNSF grants in project funding cannot request financial support from the SNSF to participate in this call.</b></p> <p><b>Proposals with overlapping funding periods with ongoing SNSF projects</b> are only approved if the research projects pursue different goals (Article 17 of <a href="#">the SNSF Funding Regulations</a>).</p>

<b>Eligible costs</b>	<p><b>Eligible costs</b> are outlined in the <a href="#">SNSF Funding Regulations</a> (Art. 28) and the <a href="#">SNSF General Implementation Regulations</a> (Section 2).</p> <p><b>Project overhead costs</b> cannot be applied for. They are calculated on the basis of the research funding acquired by eligible institutions under eligible funding schemes. Overhead contributions are paid in retrospect at a flat rate to the institutions of the SNSF awardees.</p>
<b>Information available at</b>	<p>Information available at:</p> <ul style="list-style-type: none"> <li>- <a href="#">SNSF Funding regulations</a></li> <li>- <a href="#">General Implementation Regulations</a></li> <li>- <a href="#">SNSF Regulations on Project Funding</a></li> </ul>
<b>Other</b>	<p><b>Data management plan</b></p> <p>Applicants will have to complete the DMP on <i>mySNF</i> once the project is approved, regardless of whether a DMP is requested by the consortium. The DMP has to cover the research data, which are collected, observed, generated or reused in the Swiss part of the project and has to comply with the <a href="#">SNSF Open Research Data Policy</a>.</p> <p><b>Consortium agreement</b></p> <p>Before the release of the funds, the SNSF requests the submission of a copy of the consortium agreement signed by all the partners.</p> <p><b>Grant management</b></p> <p>Grants will be managed according to standard SNSF rules described in <a href="#">SNSF Funding Regulations</a>. Yearly financial reports for the use of SNSF funds must be submitted via <i>mySNF</i>. As a final scientific report, the SNSF requests the submission of the final scientific report submitted to the CETP Call Secretariat. No other scientific report is requested.</p>

## UNITED KINGDOM - SCOTLAND – SCOTTISH ENTERPRISE (SE)

### a) National/Regional information and eligibility criteria

<b>Contact Point</b>	Karen Fraser <a href="mailto:karen.fraser@scotent.co.uk">karen.fraser@scotent.co.uk</a> Richard Buxbaum <a href="mailto:richard.buxbaum@scotent.co.uk">richard.buxbaum@scotent.co.uk</a>
<b>Funding commitment</b>	5.7m Euro (£5m)
<b>Anticipated number of projects to be funded</b>	6-10 projects, but flexible
<b>Maximum funding per awarded project/per partner</b>	No maximum
<b>Eligible types of organisations</b>	<p><b>Companies</b> (SME or large) that are legal entities registered, operating and carrying out research and development activities within Scotland or companies intending to establish a presence within the area to carry out research and development activities.</p> <p><b>Universities or other research organisations (ROs)</b> that are legal entities registered and operating in Scotland, subject to the following conditions:</p> <ul style="list-style-type: none"> <li>• ROs will only be eligible if there are at least two companies involved in the collaborative project, one of which must be a company eligible for and requesting Scottish Enterprise funding;</li> <li>• The work being carried out by the research organisation should be of direct relevance to at least one of the participating Scottish companies;</li> <li>• The budget of the Scottish research organisations should be no greater than the combined budgets of the Scottish companies involved in the collaborative project and seeking funding from Scottish Enterprise.</li> </ul>
<b>Eligible Call Modules</b>	We will consider applications under all Call Modules. However, as part of our eligibility process, projects will be expected to demonstrate relevance to Scottish Government energy strategies and expected contribution to economic development in Scotland.
<b>Eligible types of RDI and TRL</b>	No specific rules on TRLs; please refer to CETP call modules. Projects should include the development of new products, processes or services for Scottish companies.
<b>Submission of proposal /documentation at national/regional level</b>	Yes, at Full Proposal stage. Further information will be provided to applicants invited to Stage 2.

<p><b>Additional eligibility criteria</b></p>	<ul style="list-style-type: none"> <li>• The project / activity must be strategically important to the Scottish company(ies) and in line with its business plan.</li> <li>• The project must involve research and development activity in Scotland. However, testing in a demonstration site outside Scotland is also eligible.</li> <li>• Projects must have the potential to deliver benefits to Scotland’s economy and the new product, process or service must, in the case of non-SMEs, be able to compete in a global marketplace.</li> <li>• Proposals must demonstrate how the project will be implemented to ensure capability building and sustainability in Scotland to enhance the companies’ future competitiveness and research and development capacity.</li> <li>• For large companies seeking support, the project must demonstrate the incentive effect of the grant (i.e. how the applicant’s level of R&amp;D expenditure or R&amp;D jobs will be increased as a result of support).</li> </ul> <p>As part of their <a href="#">Fair Work Action Plan</a> <a href="#">the Scottish government has set out the goal to make Scotland a Fair Work Nation by 2025. To help achieve this goal, applicants for Scottish Enterprise grant support will be assessed against the Scottish Government’s seven Fair Work First Criteria.</a> Please note that to secure a R&amp;D grant, you must be able to demonstrate that your business has met or will meet the Fair Work First Criteria within six weeks of signing any contract of award. If you are unable to commit to the criteria, Scottish Enterprise may not be able to offer you an award at this time.</p>
<p><b>Eligible costs</b></p>	<p>Project-specific costs including salaries, overheads, equipment, sub-contracting, consultancy, training, materials, trials, IP management (SMEs only), travel and subsistence, and audit certificates for financial claims (SMEs only). Detailed guidance available on request.</p>
<p><b>Information available at</b></p>	<p>From contacts above</p>
<p><b>Other</b></p>	<p>Please speak to Scottish Enterprise contact prior to submitting a proposal to discuss the project scope.</p>
