

CETPartnership

Joint
Call
2022

Reporting and Knowledge Community Management Work Package - Key Messages:

- Reporting, Communication and Knowledge sharing will be supported and managed on a community level in CETPartnership. → Consider this in your project design and how you can utilise this and contribute to it.
- Competences and key stakeholders of your project together with your project results will be essential parts in this community → plan resources not only from project coordinator in this work package.
- Majority of work will be virtual but some physical meetings will occur
