## Eligibility issues – checklist

To avoid being deemed ineligible by national/regional Funding Organisations, all the Beneficiary Partners, are encouraged to check carefully the coverage and requirements of relevant Funding Organisations *before starting* the proposal.

Eligibility information is available in the call text **Annex C. National/regional requirements including contact point information**. (Relevant sections are marked in bold below.)

Common eligibility issues for Beneficiary Partners in earlier calls:

- **Topic not covered/not relevant for the Funding Organisation**  
Check **Eligible Call Modules** for the relevant Funding Organisation.
- **TRL too low/limited innovation**  
Check **Eligible types of RDI and TRL** for the relevant Funding Organisation.
- **TRL too high**  
Check **Eligible types of RDI and TRL** for the relevant Funding Organisation.
- **Budget issues**  
Check **Maximum funding per awarded project/per partner** and **Eligible costs** for the relevant Funding Organisation.
- **Insufficient involvement of companies/industry-** Check above all **Eligible types of organisations** and **Additional eligibility criteria** of the relevant Funding organisations in the consortium and make sure all partners have an active role in the project.

➤ **Specific national requests not followed/application/declaration/documentation missing**

Check **Submission of proposal/documentation at national/regional level** and send all requested information and documentation to your Funding Organisation well before the national/regional deadline (may differ from the CETPartnership's submission deadline).

➤ **Beneficiary Partner not eligible to apply**

Check **Eligible types of organisations** and **Eligible types of RDI and TRL** for the relevant Funding Organisation.

Remember that additional information may be found in Annex C of the Call text, under **Additional eligibility criteria, Information available at and Other**. In cases of uncertainty contact your local funding organisation.
