

# Clean Energy Transition Partnership (CETPartnership)

Jatta Jussila  
CEO, CLIC Innovation

Co-funded by  
the European Union

# What is CETPartnership?

**A Transnational Research and Innovation Partnership for Clean Energy Transition that:**

- Funds transnational projects supporting development and implementation of clean energy solutions – total budget over **700 million €**
- Is co-financed by the EU and more than 30 countries
- Supports both technological breakthroughs and system integration

## **Accelerating Clean Global Energy Transition**

- Achieving climate neutrality by 2050 demands urgent and coordinated innovation
- New solutions also require co-development of **new markets**

# Global Interests

The following countries have been involved in the partnership in different ways since 2022

# Two prior events explored market development for green H2 value chains

## Part I: Insight Harvesting

**Date & Time:** 16 October 2024, 9-13 CET

**Format:** Virtual Workshop

**Participants:**

- CETPartnership RDI projects and stakeholders
- Key industry experts
- Policymakers
- Funders and investors

**Focus:**

- Integration of hydrogen, energy, CCU, and hydrocarbon value chains
- Interactive discussions to identify current status and key research, development, and innovation needs

## Part II: Market Shaping Roundtable

**Date & Time:** 21 November 2024, 9-13 CET

**Location:** EU Hydrogen Week, Brussels

**Participants:**

- Industry leaders
- Researchers and innovators
- Policymakers
- Funders and investors

**Organizers:** CETPartnership & BalticSeaH2 Valley

**Focus:**

- Shaping markets for the emerging H2 & CCU value chains
- Regulatory needs & barriers
- Positioning industries within H2 & CCU economies
